OVERNIGHT NAIL TREATMENT

1. Remove nail polish, then wash & dry your nails and surrounding skin thoroughly to ensure better adhesion.

5. Peel off the remaining release paper & wrap the adhesive wings around the toe or finger to keep the patch secure.

2. Peel off the first release paper, then remove the clear film covering the center treatment area.

6. Press along the sides to ensure strong adhesion & prevent lifting during movement.

3. Place the square treatment core over the center of your nail and align the patch around your toe or fingertip.

7. Leave the patch on for 6-8 hours, preferably overnight. For best results, use consistently for 3-6 months.

4. Gently press down on the central hydrogel area to ensure full contact with the nail surface.
