Ethanol,Glycerol,Water

FUNGAL NAIL TREATMENT

For the sake of health and beauty
Hand and foot solution

Drug Information

Active Ingredient: Acetic Acid 10.5% w/w

Purpose: For the removal of fungal nails.

Use: This product is suitable for treating fungal infections of the fingernails or toenails (onychomycosis, commonly known as fungal nails) caused by dermatophytes, yeasts, and other fungi. It kills and inhibits the pathogenic fungi in the nail plate, eliminating the source of infection.

2.Improves nail symptoms caused by fungal infection, including discoloration (yellowing, browning, cloudiness, loss of gloss), thickening, roughness, deformation, brittleness, crumbling, or separation of the nail plate from the nail bed.

4.Promotes the growth of new, healthy nails and helps damaged nails gradually return to a normal appearance.

6.Warnings: For external use only. Do not take by mouth. Avoid contact with eyes, oral mucosa, and other sensitive areas.

Contraindications: Do not use if you are allergic to any ingredient in this product. Pregnant or breastfeeding women should use only under the guidance of a doctor. The safety and effectiveness for children have not been established, use under a doctor's guidance is required.

Cautions: Consult a doctor before use if the nail plate is severely damaged or if the surrounding skin shows redness, swelling, ulceration, or acute inflammation. If burning sensation, redness, swelling, increased pain, or other signs of irritation or allergic reaction occur at the application site, stop use immediately, wash off the product, and consult a doctor if necessary.

Avoid misuse: Do not use this product for fungal infections on other parts of the body (e.g., athlete's foot, ringworm) unless specifically directed by a doctor.

Storage: Keep this product out of reach of children to prevent accidental ingestion. If swallowed, seek immediate medical help or contact a Poison Control Center.

Directions: Apply evenly over the entire surface of the affected nail(s) and the inner edge of the nail (where the nail plate meets the skin). For thicker nails, gently massage to promote absorption. Use 1 to 2 times daily. (The frequency of use may be adjusted as needed based on the actual condition).

Inactive Ingredients: Ethanol, Glycerin, Purified Water.
