VMV Hypoallergenic ID Skin Buffing Cleansing Scrub

Active Ingredient

Salicylic Acid 1.00%

Purpose

Acne Treatment

Warnings

For external use only

When using this product

- Apply to affected areas only
 - Avoid unnecessary sun exposure and use a sunscreen
 - Do not use in or near the eyes
 - Using other topical acne drugs at the same time or right after use of this product may increase dryness or irritation of the skin.
- Only one drug should be used unless directed by a doctor

Keep out of reach of children,

if swallowed, get medical help or contact a Poison Control Center right away.

Directions

- 2x-a-day, massage a small amount onto wet skin. Rinse well.
- Because excessive drying of the skin may occur, start with one application daily, then gradually increase to two or three times daily if needed or as directed by a doctor
- If bothersome dryness or peeling occurs, reduce application to once a day or every other day.

Other information

- Protect the product in this container from excessive heat and direct sun.
- Before use, test a tiny amount on skin (we omit allergens, but you may be sensitive to an ingredient that is not an allergen.
- Introduce new skin products one at a time, with at least 3 days in between.
- Do not (re)introduce removed portions of product or other substances into container.

Inactive ingredients

Aqua/Water/Eau, Butylene Glycol,
Camellia Sinensis Leaf Extract,
Caprylyl Glycol, Cocos Nucifera (Coconut) Oil

Disodium Laureth Sulfosuccinate, Glycerin, Glyceryl Laurate, Glyceryl Stearate, 1,2-Hexanediol, Paraffin, Pumice Sodium Laureth Sulfate, Sodium Phytate, Stearic Acid, Stearyl Alcohol

Notes: If contact with eyes occurs, flush out with plenty of water. This product is meant to be washed off quickly, not left on the skin for longer than a few seconds while cleansing. Prolonged exposure without rinsing immediately may cause irritation to skin. Stop use and consult your doctor in the unlikely event of discomfort or sensitivity. 1ST-TIME USERS: Some first-time users may experience an initial acne break-out due to the deeper exfoliation of the pores' inner walls. If your pores have not been regularly cleaned at this level, existing pore cloggers are brought to the surface. As therapy continues, this deeper-cleaned state is maintained and acne is markedly reduced. With correct use - following instructions carefully, the slow increase in application frequency, the use of hypoallergenic, non-comedogenic and pH-appropriate support products in the Id system - as well as prevention with non-comedogenic products such as Essence Skin-Saving Hair, Body + Bath Care, Armada Sun + Light Screens, Skintelligent Beauty Makeup, this initial reaction soon disappears. If it does occur, stop use for 1 week and restart therapy at the beginning, with 2x-a-week applications. CYSTIC ACNE can be internally caused. If you have cystic acne, consult your dermatologist as you may need additional medication and/or other management.

The Safest, Most Effective Care On The Planet.

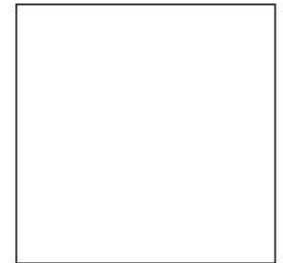

We're *skincerely* thrilled to meet you.

Who are we? The **only** brand to **validate** its **hypoallergenicity**: our **published** **VH-toting System** (the first and only hypoallergenic rating system of its kind) is based on the North American Contact Dermatitis Group and European Surveillance System of Contact Allergies. Created by a **renowned** **dermatologist-dermatopathologist**, our randomized, double-blind, **evidence-based clinical studies** have been **published in peer-reviewed medical journals** (over 75 of them) and presented (even awarded!) at dermatology conventions around the world. Each raw material, ingredient, brush — every little thing that goes into or on a product, and the product itself — is **patch tested for skin safety**. And that's just the beginning! What follows is a dizzying barrage of **clinical tests, both in laboratories (in vitro) + human volunteers (in vivo), never on animals**. We're a hypoallergenic, cosmeceutical doctor brand with **oodles of products**. Because for us, **skin safety isn't a nice perk of VMV, hypoallergenicity is a lifestyle**. We care for men, women and children of all ages, **from head to toe + cell to surface** ... which is also why so many of our customers stay with us from **diapers to dermabrasion, across generations**. Studies show that as many as 1 in 4 people is allergic to skincare and cosmetic ingredients: we're made for the 1 in 4, safe for everyone else. **We're saving the world's skin.**

Welcome to our *skinfatuation*.

Body + Bath Care, Armada Sun + Light Screens, SkinSpeed Beauty Makeup, this initial reaction soon disappears. If it does occur, stop use for 1 week and restart therapy at the beginning, with 2w+week applications. **CYSTIC ACNE** can be internally caused. If you have cystic acne, consult your dermatologist as you may need additional medication and/or other management.

BACK PANEL

crème nettoyante-gommante douce pour peaux en thérapie active

~ delicato detergente con proprietà esfolianti per pelli con dermatosi infiammatorie

~ crema suave y exfoliante de limpieza facial para pieles en terapia activa

pH-adjusted specifically for treated skin: skin stays within one safe pH range during active therapy (high-pH soaps can cause irritations). Smooth pumice grains dislodge pore cloggers. With soothing and moisturizing yet non-comedogenic virgin coconut oil plus antioxidant green tea and rice phytic acid. Gentle exfoliants and mild doses of salicylic acid prepare skin for, complement and optimize active id treatment products.

TO USE: 2x-a-day, massage a small amount onto wet skin. Rinse well. NOTE: Do not apply pressure while scrubbing or rub vigorously = a gentle massage is all you need. Do not scrub any one area for longer than 1 to 2 seconds at a time. READ WEBSITE FOR FULL INSTRUCTIONS.

step 1 of 4i cleanse

follow with: id Toner

then: id Lotion

target treat: id NonaLaurin Gel / Red Better Spot Corrector

end with: your choice of an Armada Sun + Light Screen
