

ESSENCE SKIN-SAVING ANTIPERSPIRANT- aluminum chlorohydrate spray
SKIN SCIENCES LABORATORY INC.

Disclaimer: Most OTC drugs are not reviewed and approved by FDA, however they may be marketed if they comply with applicable regulations and policies. FDA has not evaluated whether this product complies.

Active ingredient(s)

Aluminum Chlorohydrate 20%

Uses

- reduces underarm wetness and excessive sweating
- for skin prone to excessive sweating, contact dermatitis, itching, redness, granulomas or hyperpigmentation

Warnings

For external use only as directed.

Do not use on broken skin.

Stop use if rash or irritation occurs.

Ask a doctor before use if you have a kidney disease

Keep out of reach of children. If swallowed, get medical help or contact a poison control center right away.

Stop use in the unlikely event of discomfort or sensitivity and consult your doctor.

Directions

Spray 6” away from underarm skin. Can also be used on palms, soles of the feet and other sweaty areas. Let dry. For excessively sweaty skin, apply before bedtime and reapply in the morning. Do not use on broken or irritated skin. For best results: cleanse with an Essence Hair + Body Wash or Soap.

Other Information

Before use, test a tiny amount on skin (we omit allergens, but you may be sensitive to an ingredient that is not an allergen). Introduce new skin products one at a time, with at least 3 days in between. As with all things related to skin, consult your dermatologist. Do not store in extreme heat or cold. Do not (re)introduce removed portions of product or other substances into container. Due to the high concentration of drying crystals, spray may plug up – remove + rinse under warm, running water. TIP: To prevent, wipe spray clean after each use.

Inactive Ingredients

Alcohol, Aqua/Water/Eau, Glyceryl Laurate, Glycerin, PEG-12 Dimethicone.

Keep out of reach of children, If swallowed, get medical help or contact a poison control center right away.
