LINCOMED 100- lincomycin injection Bimeda, Inc.

LincoMed^{[]®} 100

lincomycin injection, USP

Swine Antibiotic

Restricted Drug (California) - Use only as Directed.

ANADA 200-368, Approved by FDA

Net Contents: 100 mL (3.3 fl oz)

LincoMed^{[]®} 100 contains lincomycin hydrochloride, an antibiotic produced by *Streptomyces lincolnensis var. lincolnensis* which is chemically distinct from all other clinically available antibiotics and is isolated as a white crystalline solid.

INDICATIONS FOR SWINE:

LincoMed^{[]®} 100 is indicated for the treatment of infectious forms of arthritis caused by organisms sensitive to its activity. This includes most of the organisms responsible for the various infectious arthritides in swine, such as staphylococci, streptococci, *Erysipelothrix* and *Mycoplasma spp*.

It is also indicated for the treatment of mycoplasma pneumonia.

CONTRAINDICATIONS:

As with all drugs, use of LincoMed^{I®} 100 is contraindicated in animals previously found to be hypersensitive to the drug.

Residue Warning: Swine intended for human consumption should not be slaughtered within 48 hours of latest treatment.

Human Warnings: Not for use in human. Keep out of reach of children.

CAUTION:

If no improvement is noted within 48 hours, consult a veterinarian.

ADVERSE REACTIONS:

The intramuscular administration to swine may cause a transient diarrhea or loose stools. Although this effect has rarely been reported, one must be alert to the possibility that it may occur. Should this occur, it is important that the necessary steps be taken to prevent the effects of dehydration.

DOSAGE AND ADMINISTRATION:

For arthritis or mycoplasma pneumonia - 5 mg per pound of body weight intramuscularly once daily for three to seven days as needed. One mL per 20 lb body weight will provide 5 mg/lb.

For optimal results, initiate treatment as soon as possible. As with any multi-dose vial, practice aseptic techniques in withdrawing each dose. Adequately clean and disinfect the vial closure prior to entry with a sterile needle and syringe. No vial closure should be entered more than 20 times.

Each mL contains:

Lincomycin hydrochloride equivalent to lincomycin 100 mg; also benzyl alcohol 9.45 mg added as a preservative.

HOW SUPPLIED:

LincoMed[®] is available in two concentrations: 100 mg/mL and 300 mg/mL.

100mg/mL: Supplied in 100 mL multiple dose vial.

300 mg/mL: For use in swine weighing 300 pounds or more. Supplied in 100 mL multiple dose vial.

STORE AT 200C - 250C (680F - 770F).

KEEP FROM FREEZING
