

IBEALEE BEE VENOM TREATMENT LIQUID- ibealee bee venom treatment liquid liquid

Shenzhen Earth Surface Trading Co., Ltd.

ACTIVE INGREDIENT

Salicylic acid 12%

Bee Venom Extract 1.5%

Purpose

wart remover

Uses

Uses · for the removal of common and plantar warts · the common wart is easily recognized by the rough "cauliflower-like" appearance of the surface · the plantar wart is recognized by its location only on the bottom of the foot, its tenderness and the interruption of the footprint pattern

Warnings

For external use only.
keep away from fire and flame.
only use on affected area.

When using this product :

- avoid contact with eyes. If the product gets into the eye, flush with water for 15 minutes
- avoid inhaling vapors
- cap the bottle tightly
- out of direct sunlight and store at room temperature away from heat

Keep Out Of Reach Of Children

Keep Out Of Reach Of Children

Directions

- Wash and dry the affected area before application.
- Apply a small amount directly on the wart surface only. Do not apply to the surrounding healthy skin. If you accidentally apply it to healthy skin, please wipe it off with water.
- Allow the liquid to dry completely. ■ repeat this procedure once or twice daily as needed (until the wart is removed) for up to 2 weeks
- A mild stinging or burning sensation may occur during use — this is a normal reaction. this indicates that the active ingredient is working on the targeted area. Do not be alarmed; the sensation will gradually fade.

Stop use and ask a doctor:

· if discomfort persists.·if you have diabetes or poor blood circulation.Keep out of reach of children. If swallowed, get medical help or contact a Poison Control Center right away.

Inactive ingredients

Cnidium monnieri, Podophyllum,Hawthorn, Stellera chamaejasme, Sophora flavescens, Earthy hibiscus bark, Honeysuckle
