PRESERVATIVE-FREE ARTIFICIAL TEARS

Lubricant Eye Gel Drops

Mild to Moderate Dry Eye Symptoms

Clinically Proven Gel Shield

- Stabilizes tear film
- Reduces tear evaporation
- Provides sustained hydration & comfort
- Rapid Relief

STERILE

0.013 FLOZ (0.5 mL)

Doctor-developed, clinically proven Exovisse Artificial Tears provide an advanced solution to alleviate discomfort caused by dry eyes.

The unique eye drops transform from a liquid at room temperature into a gel upon contact with body heat, forming a comfortable, lubricating, thin layer over the surface of the eye. The layer creates a shield that stabilizes the tear film reducing evaporation and the need for frequent reapplication while maintaining oxygen permeability and moderate viscosity, to minimize visual disturbances after application.

Preservative-free, gentle and non-irritating, Exovisse eye gel drops can be used while wearing contact lenses.
