

OSSTEM S SENSITIVITY RELIEF TOOTH- potassium nitrate, sodium fluoride paste, dentifrice
Osstem Pharma Co., Ltd

Osstem S Sensitivity Relief Toothpaste

Active ingredients

Potassium Nitrate 5.000%

Sodium Fluoride 0.221%

Purpose

Antihypersensitivity

Anticavity

Uses

- Builds increasing protection against painful sensitivity of the teeth to cold, heat, acids, sweets or contact.
- Aids in the prevention of dental cavities

Warnings

Stop use and ask a dentist if the problem persists or worsens. Sensitive teeth may indicate a serious problem that may need prompt care by a dentist.

Do not use this product longer than 4 weeks unless recommended by a dentist or a doctor.

Keep out of reach of children under 6 years of age. If more than used for brushing is accidentally swallowed, get medical help or contact a Poison Control Center right away.

Keep out of reach of children under 6 years of age. If more than used for brushing is accidentally swallowed, get medical help or contact a Poison Control Center right away.

Directions

- Adults and children 12 years of age and older: Apply at least a 1-inch strip of the product onto a soft bristle toothbrush.
- Brush teeth thoroughly for at least 1 minute twice a day (morning and evening) or as recommended by a dentist or doctor.
- Make sure to brush all sensitive areas of the teeth.
- Instruct children under 6 years of age in good brushing and rinsing habits (to minimize swallowing)
- Supervise children as necessary until capable of using without supervision.
- Children under 12 years of age: Consult a dentist or doctor.
