KEEP OUT OF REACH OF CHILDREN
NOT FOR HUMAN USE

Attention

For External Use Only

Wash hands thoroughly after handling.

Get medical advice/ attention if you feel unwell.

DIRECTIONS:

QUARESS BARRIER IS INTENDED TO BE USED WITH LELY ROBOTIC MILKING SYSTEMS

IMPORTANT: Do not further dilute with water or mix with any other teat dips/sprays. If product becomes visibly dirty, discard contents and replenish with fresh product. Do not reuse or return any unused product to the original container.

Pre-Milking/Prepping: Teats should be prepped according to the recommendations of Lely, using the appropriate Astri brush wash product.

Post-Milk Spraying: Using fresh Quaress Barrier, spray the full-length of each teat. Do not wipe. Allow to air dry. Do not turn cows out in freezing weather until the product is completely dry.

Expanded Usage: When freshening cows, begin spraying teats twice daily for about 10 days before calving.

PRECAUTION: Quaress Barrier is not intended to cure or help the healing of chapped or irritated teats. As with any germicide, irritation or sensitization may occur in sensitive animals. In case of teat irritation or chapping, have the condition examined and, if necessary, treated by a veterinarian.

READ SAFETY DATA SHEET (SDS) BEFORE USING THIS PRODUCT

EMERGENCY HEALTH INFORMATION: 1 800 328 0026. If located outside the United States and Canada, call collect 1 651 222 5352 (number is in the US).

INSTRUCCIONES:

QUARESS BARRIER DEBE SER USADO CON LOS SISTEMAS ROBOTICOS DE ORDEÑADO MARCA LELY

IMPORTANTE: No lo vuelva a diluir con agua ni lo mezcle con otros productos para baño de pezones. Si el producto del recipiente para realizar el baño está visiblemente sucio, desheche el contenido y rellene el recipiente con producto fresco. No vuelva a utilizar el producto ni vuelva a colocar producto sin usar en el contenedor original.

Pre-ordeño/Preparación: Los pezones se deben preparar de acuerdo con las recomendaciones de Lely, utilizando el producto de lavado con cepillo Astri adecuado.

Rociado del pezón posterior al ordeño: Utilice Quaress Barrier fresco, rocíe el largo total de cada ubre. No limpie. Permita el secado por el aire. No se lo retire a las vacas en un clima de congelamiento hasta que el producto esté completamente seco.

Uso ampliado: Cuando las vacas se encuentren en lactancia, comience a rociar las ubres dos veces al día durante unos 10 días antes de dar a luz.

PRECAUCIÓN: Quaress Barrier no está pensado para curar ni ayudar a sanar los pezones agrietados o irritados. Como cualquier germicida, el producto puede causar irritación o sensibilización en los animales sensibles. Si los pezones están agrietados o irritados, encargue a un veterinario que examine la condición y la trate si es necesario.
