

MICRO INFUSIONSYSTEM- seek glo liquid
Ningbo Kenwei International Trade Co., Ltd.

MICRO-INFUSION SYSTEM

Eye protection: Avoid getting shampoo foam into your baby's eyes during washing. If it accidentally gets into their eyes, gently rinse with clean water until the irritation subsides. Skin reaction: If persistent redness, itching, or blistering occurs, discontinue use and consult a pediatrician. Storage and handling: Keep out of reach of children, store in a cool, dark place, and avoid direct sunlight and high temperatures. Use within the expiration date indicated on the packaging after opening.

Deep Dermal Hydration: Restores skin elasticity to reduce new marks.
Collagen Support: Boosts fibroblast activity to repair stretch-related skin trauma.
Skin Soothing: Calms redness and irritation on stretched or damaged skin.
Pigment Softening: Helps fade the color of both red and white stretch marks.
Barrier Repair: Strengthens skin and supports stretch mark recovery.

For external use only. Keep out of reach of children. Discontinue if irritation occurs. Used for those over 18 years old Storage condition: Do not store above 30°C (86°F). It is recommended to store it in a cool and dry place, avoiding direct sunlight.

1,2-Pentanediol

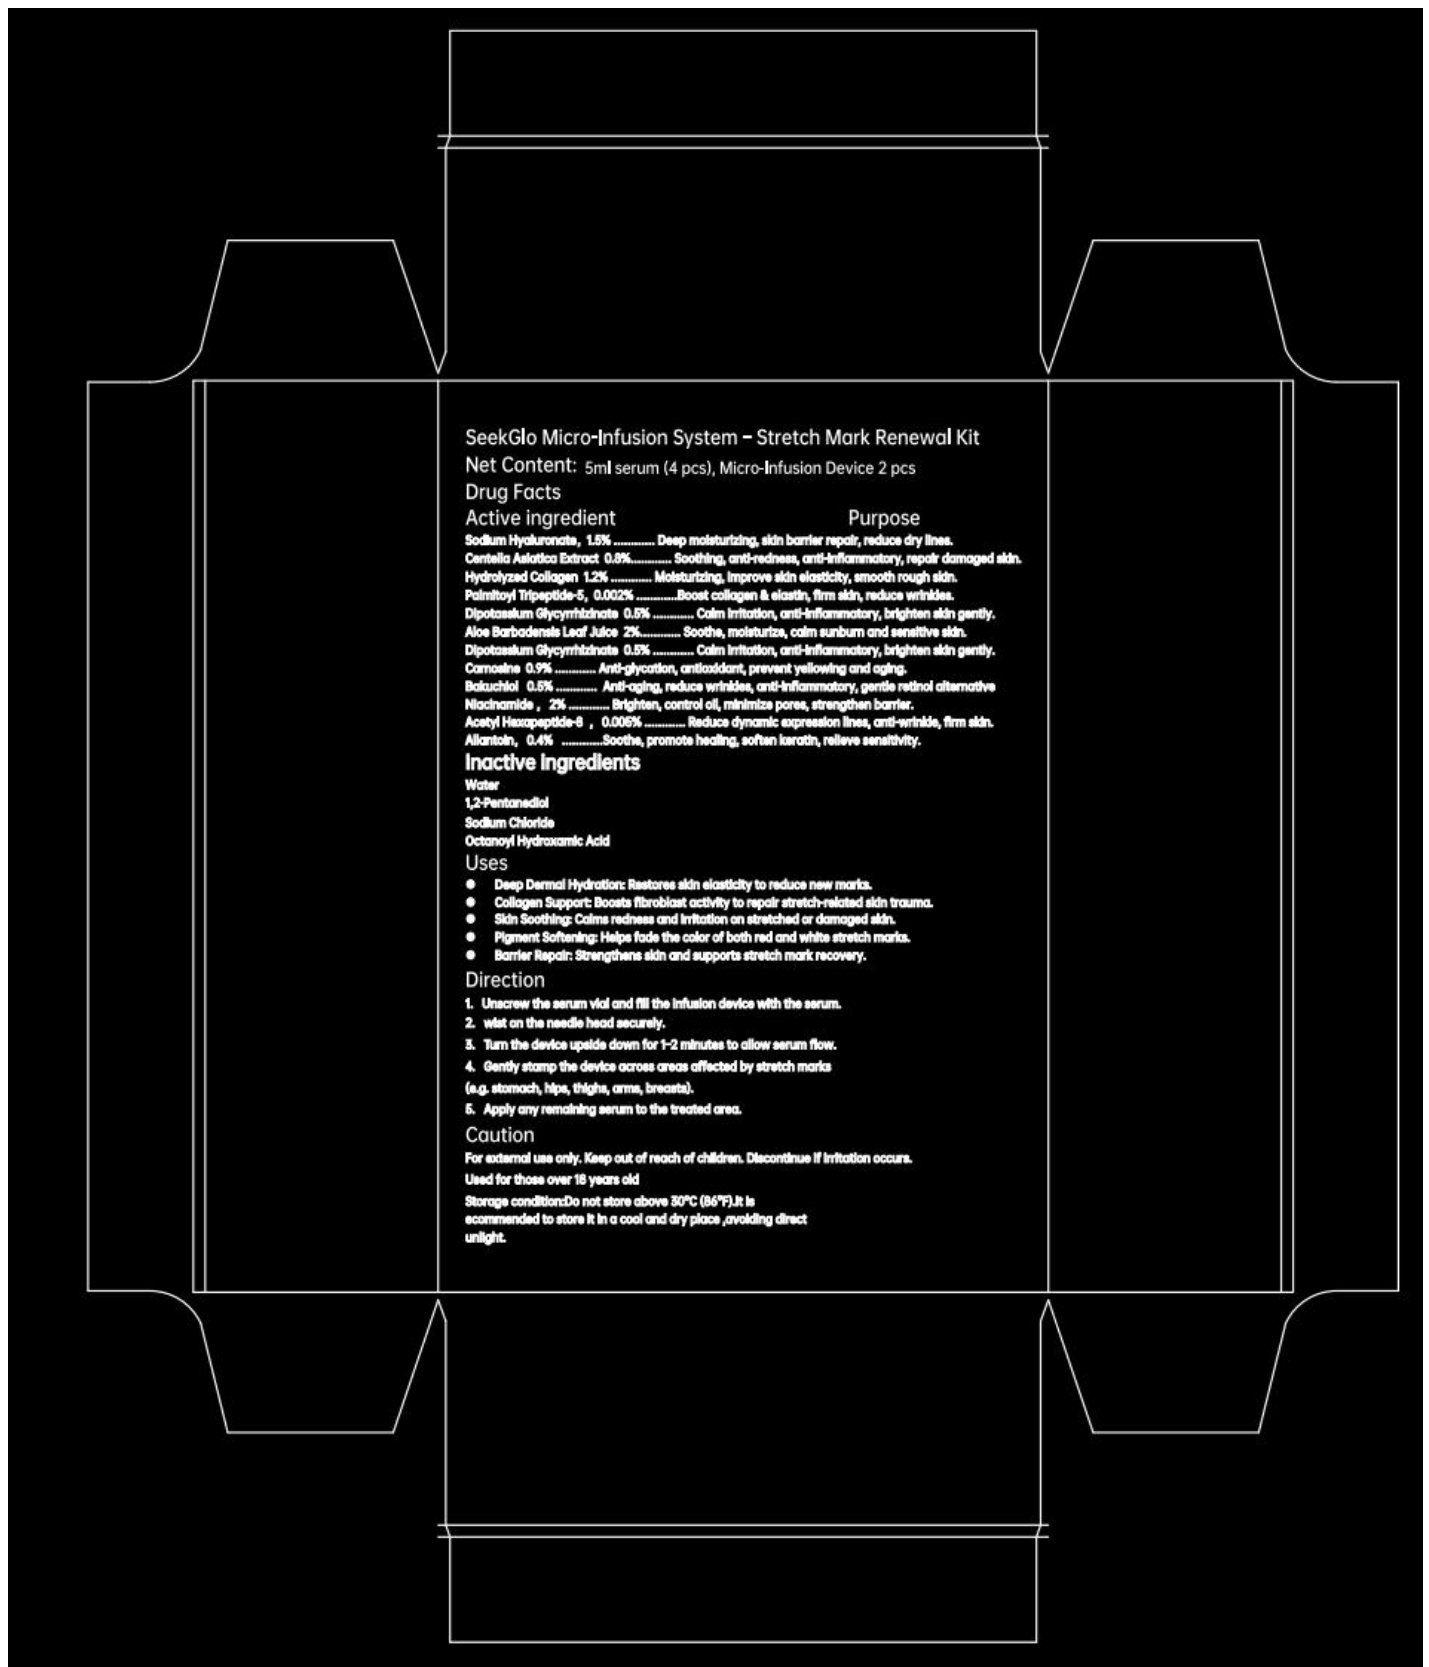

Sodium Chloride

Water

Octanoyl Hydroxamic Acid

Deep Dermal Hydration: Restores skin elasticity to reduce new marks.
Collagen Support: Boosts fibroblast activity to repair stretch-related skin trauma.
Skin Soothing: Calms redness and irritation on stretched or damaged skin.
Pigment Softening: Helps fade the color of both red and white stretch marks.
Barrier Repair: Strengthens skin and supports stretch mark recovery.

Direction 1. Unscrew the serum vial and fill the Infusion device with the serum. 2. Twist on the needle head securely. 3. Turn the device upside down for 1-2 minutes to allow serum flow. 4. Gently stamp the device across areas affected by stretch marks (e.g. stomach, hips, thighs, arms, breasts). 5. Apply any remaining serum to the treated area.
