Uses:

For the treatment of mild and localized cases of bumblefoot (pododermatitis) in caged raptors and pet birds.
 For use as a topical antiseptic for :
 · more severe cases of bumblefoot to assist healing after surgery in caged raptors and pet birds.
 · surface wounds on raptors, pet birds, captive small mammals, captive reptiles, and captive exotic/zoo mammals.
 Use only when there is a reasonable certainty that the treated animal will not be consumed by humans or food-producing animals.

Do not use: Do not use with soaps or other

chemicals.

Human Warnings:

Not for use in humans. Keep out of reach of children.
 If accidentally ingested, do not induce vomiting. Give milk or water to drink.
 If accidental eye contact, hold eye open and rinse with water for 10 minutes. Seek medical help if necessary.
