**GLYTONE Acne Treatment Lotion**

***Drug Facts***

***Active Ingredients***

Salicylic Acid 1 %

***Purpose***

Acne Treatment

***Use***

For the treatment of acne.

- Dries and clears acne blemishes and allows skin to heal.
- Penetrates pores to eliminate most acne blemishes, blackheads, and whiteheads.
- Helps prevent the development of new acne blemishes, blackheads, and whiteheads.

***Warnings***

**For external use only**

**For external use only.**

**When using this product**

- skin irritation and dryness is more likely to occur if you use another topical acne medication at the same time. If irritation occurs, only use one topical acne medication at a time.
- avoid contact with the eyes. If eye contact occurs, flush thoroughly with water.

**Keep out of reach of children.**

If swallowed, get medical help or contact a Poison Control Center right away.

***Directions***

- Cleanse the skin thoroughly before applying medication.
- Cover the affected area(s) with a thin layer one to three times daily, or as directed by your physician.
- Because excessive drying of the skin may occur, start with one application daily, then gradually increase to two to three times daily or as directed by your physician.

- If bothersome dryness or peeling occurs, reduce application to once a day or every other day.
