WESTAGRO
QuarterMate Concentrate with Glycerin

DIRECTIONS FOR USE:

GENERAL INSTRUCTIONS

- Dilute before using. See "Directions for Dilution".
- Consult your veterinarian before using teat dip on a cow with sore or chapped teats.
- Thoroughly clean and sanitize teat dip cup before each milking. Use fresh teat dip for each milking. Dip solution should be changed if it becomes visibly dirty or if sediment is introduced. Do not pour used teat dip back into original container.
- Do not use Quarter Mate Concentrate for cleaning or sanitizing equipment.

DIRECTIONS FOR DILUTION

Automatic blending

- Dilute Quarter Mate Concentrate through a West Agro blending system. Follow operating instructions. When diluted, Quarter Mate Concentrate will yield a ready-to-use 0.1% iodine teat dip with glycerin.
- NOTE: When diluting automatically, use only the West Agro blending delivery system. Use of any other product may cause injury or damage to animals or equipment. Finished product could result which may not be effective as a teat dip.

Manual Blending

- Quarter Mate Concentrate must be diluted before use. Failure to follow the following instructions may result in a product which may not be effective as a teat dip or which may cause injury to animal.
- Thoroughly clean a five gallon blending container available through your West Agro dealer.
- Add three (3) gallons of potable water in the blending container followed by one (1) gallon of Quarter Mate Concentrate.
- Mix thoroughly by shaking closed blending container.
- When properly diluted, one gallon of Quarter Mate Concentrate will yield four (4) gallons of a ready-to-use 0.1% iodine teat dip with glycerin.

PRE-DIPPING

- Make sure udder and teats are clean and dry.
- Check milk and udder for mastitis.
- Dip or spray cow's teats with properly diluted Quarter Mate Concentrate.
- Allow 15 to 30 seconds contact time.
- Dry cow's teats with a single service paper towel before milking.
- Attach milker unit.

POST-DIPPING

- Immediately after removing inflations, dip or spray cow's teats with properly diluted Quarter Mate Dip Concentrate. Do not wipe.
- If outside temperature is below freezing, allow teat dip to air-dry on cow's teats before cow leaves the parlor; or allow teat dip to remain on cow's teats before cow leaves the parlor then dry teats with

a single service paper towel. Failure to follow these directions may result in frozen teats and injured animals.

Color added to indicate contact with the animal.

QuarterMate Concentrate

With Glycerin

Sellador De Pezones Desinfectante Con Glicerina

Este producto esta concentrado, por lo tanto diluya antes de usar.

ACTIVE INGREDIENT:

Iodine 0.42% w/v

After dilution according to directions

Iodine 0.1%

**From polyethoxy polypropoxy polyethoxy ethanol-iodine complex
pH 5 mininum**

I-tech

PATENTED FREE IODINE TECHNOLOGY

U.S. Patent No 4,271,149

NPE FREE Formula

ACT

ADVANCED CONDITIONING TECHNOLOGY

U.S. Patent No.

5,368,868

Manufactured by:

WESTAGRO

11100 N. Congress Ave. Kansas City, MO

63153-1296

0116

NDC 33392-116

- Pre-dip, post-dip, the only dip you need.
- Elevated free iodine for fast kill of mastitis causing organisms.
- Unique pH balance formula has glycerin plus cosmetic grade complexors for excellent skin conditioning.
- University tested using National Mastitis Council protocols. Proven effective in reducing the incidence of mastitis.
- Contains food grade ingredients to eliminate residue concerns.
