---

**WormEze GelWormer for Cats and Dogs**

**Active Ingredient**

Piperazine Citrate 275 mg/teaspoon (5ml)  
(Equivalent to 110 mg Piperazine Base)

**Purpose**

Anthelmintic  
(Expels Worms)

**Uses:**

A dog and cat gel wormer for use in food for the removal of large roundworms (ascarids) (*Toxocara canis*, *Toxocara cati*, *Toxascaris leonina*).

Not meant for heartworms or tapeworms.

**Warnings:**

- Although Piperazine is a drug with a wide margin of safety, occasionally an animal may show nausea, vomiting, or muscular tremors. Such side effects are usually associated with overdosage; therefore, the recommended dosage should be followed carefully.
- Animals with known kidney pathology should be treated only by a veterinarian.
- Check with a veterinarian immediately if side effects are noticed.
- For oral animal use only.

**Keep this and all pet products out of reach of children.**

**Caution:**

Consult veterinarian before using in severely debilitated animals.

Do not worm animals more than twice yearly except as advised by a veterinarian. This product is effective for those round worm stages found in the intestine and does not remove migrating larval stages. Animals should be checked periodically by a veterinarian for the presence of other intestinal parasites.

Never worm a sick pet. Do not worm a puppy or kitten under six weeks of age.

Do not worm a puppy under 5 pounds of weight or a kitten under 3 pounds.

Not recommended for pregnant or nursing females.

***Directions:***

Administer one teaspoonful (5 mL) per 5 pounds of body weight.

- Apply into pet's mouth or mix into food.
- Administer to cats and dogs 6 weeks or older.
- Repeat treatment in 10 days after first treatment.

***Storage:***

Store at temperature between 59-86° F.

***Inactive Ingredients:***

Water, Sucrose, Sorbitol, Sodium Saccharin, Caramel, Citric Acid, Methylparaben, Pectin, Propylparaben, Artificial Flavor, Carboxymethylcellulose (CMC).
