NPS Teat Wipes with Lanolin Pre-Treated Iodine based Teat Wipes with Conditioner

PRE-TREATED IODINE BASED TEAT WIPES are a ready to use, one step udder preparation system. Iodine teat wipes are a mild, biodegradable non-acid, teat wipe impregnated with 0.5% Iodine, 6% Glycerine and Alcohol added. Iodine is an economical udder wash, which thoroughly cleans and softens the udder. Iodine reduces mastitis causing organisms.

BENEFITS:

- No more messy dips or sprays
- One-step cleaning and sanitizing
- Cost effective
- Aids in preventing mastitis
- Convenient/Portable

USES:

- Pre-milking udder preparation
- Teat cleansing prior to intramammary infusion
- Both cow and goat dairy animals

Ingredients:

INGREDIENTS:

1. .5% Iodine (Active Ingredient)
2. 6% Glycerin
3. Alcohol added

Setup:

1. Remove core
2. Thread wipe from center of roll through the opening in the lid
3. Replace lid on bucket.
4. Dispense wipes as needed by needed, by pulling through opening at 45 degree or sharper angle.
5. Keep pail closed to avoid evaporation.

Directions for Use:

1. Use a clean towel for each animal. Note: If teats are extremely soiled, use one wipe to remove debris and a second wipe to sanitize teat.
2. Hold wipe in palm, massage and wipe full length of teat to clean and sanitize.
3. Wipe teat end.
4. Attach milking unit.

Warning:

WARNING: FLAMMABLE LIQUID ON WIPE, KEEP AWAY FROM HEAT, SPARKS OR FLAME.

Caution: Harmful if swallowed. Keep out of the reach of children, contains Iodine.

First Aid: If swallowed, give plenty of water or milk to dilute product. Contact a physician. In case of eye contact, flush with water for at least 15 minutes. Contact a physician.
