**Abelia™ Small Pet Otic**

Antimicrobial, drying, deodorizing, soothing and protective otic solution for rabbits, ferrets and other small mammals. Ideal for very sensitive ears especially in pocket pets, exotic mammals, kittens, puppies and small breeds of dogs and cats. Can be used alone or with other therapeutic agents.

Gentle aqueous treatment for acute and chronic yeast infections including *Malassezia spp.* Relieves itching and calms irritation. Restores healthy environment of ear canal. Nourishes and replenishes epithelium to favor healing. Helps dry and freshen ear canal. Does not interfere with allergy tests. Stain and oil free on fur, pets beds and furniture. Antibiotic and corticosteroid free.

**Indications:** for initial and maintenance treatment of ear canals with yeast and *Malassezia spp.* otitis, disrupted epithelium, and excess debilitating moisture. For regenerating ear canal epithelium after treatment of ear mites in rabbits, ferrets and kittens. Safe for frequent and long-term use. Safe for use with perforated tympanic membrane.

**Directions:** apply 5-10 drops depending on size of ear canal. Gently massage base of ear to loosen debris, wipe away excess with soft absorbent material. For initial problems use once or twice a day per your veterinarian's recommendations and evaluations. For maintenance, apply once or twice a week.

**Ingredients:** deionized water, zinc gluconate, boric acid, L-lysine, propylene glycol, taurine, methylparaben, propylparaben.

**Cautions:** for animal and topical use only. Avoid contact with eyes. If irritation develops or increases discontinue use and consult your veterinarian. Keep out of reach of children and animals. Store at room temperature.

**Always work with your veterinarian for your animals optimal health and well-being.**

## Small Pet Otic

### Otic Solution for Small Pets

Cleanses  
Restores  
Calms

**Ingredients:** Zinc gluconate - 1%. Purposes: Supports healing and antipruritic.

**Inactive Ingredients:** Boric acid, L-lysine, methylparaben (as a preservative), propylene glycol, propylparaben (as a preservative), purified water, taurine.

Soothing and restoring otic solution with calming, drying and deodorizing properties for small dogs and cats, rabbits, ferrets and other small mammals with sensitive skin.

**Characteristics:** 4 fl. oz. ideal for long-term use and multipet households. Also 2 fl. oz. available.

- Antibiotic andazole free
- Can be used alone or with other therapeutic agents
- Fragrance Free – Minimizes hypersensitivity reactions
- Safe for frequent and long-term use
- Safe for use with perforated tympanic membrane
- Low incidence of post-application stinging
- Non-staining
- Aqueous based – Suitable for narrowed ear canals

Zinc, an essential component of the epithelium, participates in the production of skin collagen. Taurine and L-lysine allow zinc gluconate to reach deeper layers of the skin. Boric acid dries excess moisture in the ear canal. Taurine chelates sulfur compounds to reduce malodor.

**Recommended use:** Gentle aqueous treatment that relieves itching and calms irritation, for acute and chronic yeast infections, including *Malassezia* spp. Restores healthy environment of ear canal. Nourishes and replenishes the ear epithelium to favor healing. Helps dry and freshen ear canals.

For initial and maintenance soothing care of sensitized ears, initial and maintenance treatment of ear canals with yeast and *Malassezia* otitis, disrupted epithelium, and excess debilitating moisture. Also indicated for regenerating ear canal epithelium.

**Directions for use:** Apply 5-10 drops depending on the size of ear canal. Gently massage base of ear to loosen debris, wipe away excess with soft absorbent material. For initial problems use once or twice a day per your veterinarian's recommendations and evaluations. For maintenance, apply once or twice a week.

**Preservative System:** This product is preserved with Methylparaben, Propylparaben, and Zinc gluconate.

**Storage:** Store at room temperature (20-25°C / 68-77°F). Protect from direct sunlight and excessive moisture.

**Warnings:** For use in ears only. Not for human use. If irritation occurs, discontinue use and consult your veterinarian. If no improvement is observed within 7 days of treatment, consult with your veterinarian. Keep out of reach of children.

**Always work with your veterinarian for your animal's optimal health and well-being.**

**Ingredientes:** Gluconato de zinc – 1%. Uso: Apoyo a la regeneración del canal auditivo y antipruriginoso.

**Ingredientes Inactivos:** Ácido bórico, L-lisina, metilparabeno (como conservante), propilenglicol, propilparabeno (como conservante), agua purificada, taurina.

Solución ótica calmante y restauradora con propiedades secantes y desodorizantes para perros pequeños y gatos, conejos, hurones y otros pequeños mamíferos con piel sensible.

**Características:** 4 fl. oz. ideal para uso prolongado y hogares con varias mascotas. También disponible en 2 fl. oz.

- Sin antibióticos ni azoles
- Puede utilizarse solo o con otros agentes terapéuticos
- Sin perfume – Minimiza reacciones de hipersensibilidad
- Seguro para uso frecuente y a largo plazo
- Seguro para uso con membrana timpánica perforada
- Baja incidencia de escozor tras la aplicación
- No mancha
- Base acuosa – Apropriada para canales auditivos estenosados

El zinc, componente esencial del epitelio, participa en la producción de colágeno cutáneo. La taurina y la L-lisina permiten que el gluconato de zinc alcance las capas más profundas de la piel. El ácido bórico seca el exceso de humedad del conducto auditivo externo. La taurina quela los compuestos de azufre para reducir el mal olor.

**Uso recomendado:** Con acción suave que alivia el picor y calma la irritación, para las infecciones agudas y crónicas por hongos, incluida *Malassezia* spp. Restaura las condiciones fisiológicas del conducto auditivo externo. Nutre el epitelio del oído para favorecer la cicatrización. Ayuda a secar y refrescar los conductos auditivos.

Para el cuidado inicial y de mantenimiento de oídos sensibilizados, el tratamiento inicial y de mantenimiento de conductos auditivos con otitis por levaduras y *Malassezia*, epitelio alterado y con exceso de humedad. También indicado para regenerar el epitelio del conducto auditivo externo.

**Modo de empleo:** Aplicar de 5 a 10 gotas dependiendo del tamaño del conducto auditivo externo. Masajear suavemente la base del oído para aflojar la suciedad, limpiar el exceso con un material absorbente suave. Para uso inicial, utilizar una o dos veces al día según las recomendaciones y evaluaciones de su veterinario. Para mantenimiento, aplicar una o dos veces por semana.

**Agentes conservantes:** Este producto se conserva con metilparabeno, propilparabeno y gluconato de zinc.

**Almacenamiento:** Guardar a temperatura ambiente (20-25°C / 68-77°F). Proteger de la luz solar directa y de la humedad excesiva.

**Advertencias:** Para uso exclusivo en oídos. No apto para uso humano. Si se produce irritación, interrumpa su uso y consulte a su veterinario. Si no se observa mejoría tras 7 días de tratamiento, consulte a su veterinario. Mantener fuera del alcance de los niños. USO VETERINARIO.

**Trabaje siempre con su veterinario para la salud y el bienestar óptimos de su animal.**
