Vetone (Vet Drug Listing) 111.000/111AA /485AD Povidone Iodine Scrub 7.5%

Ingredients

ACTIVE INGREDIENT: Povidone-Iodine 7.5% (0.75% available Iodine)

INACTIVE INGREDIENT: alcohol denat., C12-13 parath-9. citric acid, disodium phosphate, hydroxyethylcellulose, sodium hydroxide, water

Indications and Use

INDICATIONS: A germicidal cleanser for preoperative and postoperative skin washing, and shampoo for bacterial and fungal skin infections in animals. Used routinely, it helps prevent infection in cuts, scratches, abrasions, and burns. Non-staining to skin, hair and natural fabrics after repeated wash.

DIRECTIONS FOR USE: PREOPERATIVE SKIN PREPARATION: After the surgical area is clipped, wet with water. Apply scrub (1 mL is sufficient to cover an area of 20 to 30 square inches), develop lather, and scrub thoroughly for approximately 5 minutes. Rinse using sterile gauze saturated with water. The area may then be painted with Povidone Iodine Scrub and allowed to dry.

Warning

For external use only. Do not use this product in the eyes or on food-producing animals.

When using this product, prolonged exposure to wet solution may cause irritation or, rarely, severe skin reactions. In preoperative prepping, avoid "pooling" beneath the animal. Stop use and ask a veterinarian if irritation and redness develops or in rare instances of local irritation or sensitivity. If swallowed, get medical help or contact a Poison Control Center right away.

Storage

Store at controlled room temperature between 15° - 30° C (59° - 86° F). Keep container tightly closed when not in use.
