Defend II

Defend II

Defend II™ is a 1% sanitizing iodine barrier dip with a 10% skin conditioning package which is very economical in its usage. **Defend II™** provides extended protection against mastitis-causing organisms in challenging conditions such as exposure to mud, manure and alternative bedding materials. Tests show that unlike regular teat dips and sprays, more than one-third of the **Defend II™** barrier dip remains on the teats 20 minutes after application.

Use Instructions:

Post-Dipping/Spraying: Dip/spray teats with undiluted product immediately after milking. Allow to air dry.

Freshening Cows: Begin dipping teats twice daily for about 10 days before calving.

Dry Cows: Dip/spray teats once a day for several days following the last milking.

Cold Weather: Do not turn out cows until teats are dry to prevent chapping and freezing. If necessary, wipe dry with a single service towel.

Do not use this product for cleaning or sanitizing equipment.

Replace the solution if it becomes visibly dirty.

Teat Irritation or Chapping: Teat dips have the potential to cause irritation of a cow's teats or milker's hands. Individual tolerance to a particular formulation as well as other factors (dry or cold weather, improper teat dip application, bedding quality, milking equipment, etc.) may also affect teat condition. If you observe abnormal irritation or chapping, discontinue use and contact your sales representative or call your dealer.

Disposal Considerations:

Disposing of contaminated packaging: To clean the container before final disposal, empty the remaining contents from this container into application equipment. Fill the container ¼ full with water. Replace and tighten closures. Agitate vigorously or recirculate water for 30 seconds. Empty the rinsate into application equipment or a mix tank or store rinsate for later use or disposal. Repeat this procedure two more times.

Caution:

Hazard statement(s):

May be harmful if swallowed. Causes eye irritation.

Precautionary statement(s):

Do not eat, drink or smoke while using this product. Wear protective clothing, and eye

and
face protection.

Hazards not otherwise classified: None Known

First Aid:

General Advice: May cause eye irritation with corneal injury and result in impairment of vision.

External: If irritation occurs, flush with plenty of cool, running water for at least 15 minutes

while removing contaminated clothing and shoes. Wash clothing before reuse.

Eyes: Immediately flush with plenty of cool, running water. Remove contact lenses; then continue flushing for at least 15 minutes, holding eyelids apart.

Internal: Call a physician immediately. If swallowed, do not induce vomiting. Rinse mouth,

then immediately drink one or two large glasses of water or milk. Never give anything by mouth to an unconscious person.

Inhalation of vapors: Should not occur with proper use of this product.

Most important symptoms/effects, acute and delayed: None known

Immediate medical attention and special treatment needed, if any: None known
