**Gladiator Super Dry**

**DIRECTIONS FOR USE:**

Use in a well ventilated area. Do not pour unused product back into container. Keep bottle tightly closed when not in use to prevent drying of product. Apply using disposable 3 oz. paper cups.

**At Dry Off:**

At last milking prior to dry off, milk cow completely. If part of your normal program, infuse cow with dry cow antibiotic as directed by your veterinarian. Dip entire teat length in *Gladiator Super Dry*. For maximum protection, a second coat of sealant may be applied after the first dip is completely dry.

**10 Days Prior to Calving:**

Clean teat and thoroughly dry with clean towel. Dip entire teat length in *Gladiator Super Dry*. Sealant should remain on teat for up to 7 days depending on teat and pen conditions. Observe daily and re-dip in sealant is removed prior to calving. After calving, peel off any remaining sealant prior to milking.

**INGREDIENTS:**

Ethyl Alcohol (30% w/w), Isopropyl Alcohol (25% w/w), Chlorine Dioxide 0.1%

**CAUTION**

**KEEP OUT OF REACH OF CHILDREN**

**NOT FOR HUMAN USE**

**FIRST AID:**

If in eyes: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses,

if present after the first 5 minutes, then continue rinsing. Contact a physician immediately.

If swallowed: Have person sip a glass of water if able to swallow. Do not give anything to an unconscious person. Do not induce vomiting. Contact a physician immediately.

If breathing difficulty occurs: Move person to fresh air. Contact a physician immediately.

If on skin: Take off contaminated clothing. Rinse skin with soap and water. If irritation develops and persists, contact a physician.

Have the product container or label with you when going for treatment, calling a physician, the emergency number listed on this label or MSDS, or a poison control center.

**PRECAUTION:** Avoid eye contact. Do not ingest. Do not mix with any chemicals.

**STORAGE:** Store in a closed container away from sources of heat. If product becomes frozen, thaw and mix well before use.

**Gladiator™ Super Dry** is a safe and ready to use dry cow teat sealant. Based on advanced skin care polymer technology, it safely and effectively seals and protects dry cow teats for 4-7 days as part of your dry cow program. The alcohol-based system quickly and safely dries while chlorine dioxide provides long acting protection. It's bright blue color is easy to spot. It has Aloe and Vitamin E, providing extra teat conditioning during the dry off period.

**Directions for Use:**

Use in a well ventilated area. Do not pour unused product back into container. Keep bottle tightly closed when not in use to prevent drying of product. Apply using disposable 3 oz. paper cups.

**At Dry Off:** At last milking prior to dry off, milk cow completely. If part of your normal program, infuse cow with dry cow antibiotic as directed by your veterinarian.
