

**LA ROCHE POSAY LABORATOIRE DERMATOLOGIQUE ANTHELIOS 50 DAILY
ANTIAGING PRIMER WITH SUNSCREEN- avobenzene, homosalate, octisalate,
octocrylene and oxybenzone lotion
L'Oreal USA Products Inc**

Drug Facts

Active ingredients

Avobenzene 3%

Homosalate 10%

Octisalate 5%

Octocrylene 5%

Oxybenzone 6%

Uses

- helps prevent sunburn
- if used as directed (see **Directions**), decreases the risk of skin cancer and early skin aging caused by the sun

Warnings

For external use only

Do not use

on damaged or broken skin

When using this product

keep out of eyes. Rinse with water to remove.

Stop use and ask a doctor if

rash occurs

Keep out of reach of children.

If swallowed, get medical help or contact a Poison Control Center right away.

Directions

For sunscreen use:

- apply generously 15 minutes before sun exposure
- reapply at least every 2 hours
- use a water resistant sunscreen if swimming or sweating
- **Sun Protection Measures.** Spending time in the sun increases your risk of skin cancer and early skin aging. To decrease this risk regularly use a sunscreen with a Broad Spectrum SPF value of 15 or higher and other sun protection measures including:
 - limit time in the sun, especially from 10 a.m. - 2 p.m.
 - wear long-sleeved shirts, pants, hats and sunglasses
 - children under 6 months of age: Ask a doctor

Purpose

Sunscreen

Other information

- protect the product in this container from excessive heat and direct sun

Inactive ingredients

dimethicone, C12-15 alkyl benzoate, talc, diisopropyl sebacate, silica, silica silylate, glycerin, trimethylsiloxysilicate, dimethicone crosspolymer, water, diethylhexyl syringylidenemalonate, cassia alata leaf extract, maltodextrin

1-888-LRP-LABO 1-888-577-5226

Monday - Friday (9 a.m. - 5 p.m. EST)

Dermatologists know that: **UVA rays** are responsible for more than **80%** of skin aging (fine lines, wrinkles, sagging, dark spots) and are the main cause of sun intolerances.

All year-long, even in cloudy weather, in the city or through glass, UVA rays penetrate the skin down to the dermis layer. This is why dermatologists recommend using a daily, broad spectrum UVA/UVB product to help prevent early skin aging and sun reactions.

A pioneer in sun protection research for over 15 years, La Roche-Posay, with ANTHELIOS, is trusted by dermatologists worldwide for its advanced formulations in UVA protection.

Dermatological safety: ANTHELIOS 50 Daily Anti-Aging Primer with sunscreen has been formulated and rigorously tested for optimal skin tolerance.

BREAKTHROUGH INNOVATION

For the 1st time, ANTHELIOS 50 Daily Anti-Aging Primer with sunscreen combines broad spectrum UVA/UVB protection and powerful antioxidants in a primer that provides a blurring effect on skin. This innovative skincare provides instant optical correction of signs of aging and daily prevention of aging caused by the sun.

Properties:

1. **Instant correction of signs of skin aging**
Colorless, lightweight texture fills-in and smoothes imperfections (fine lines, wrinkles, pores) for an even complexion and an instantly younger-looking skin. Its formula is enriched with absorbing powders to mattify skin and eliminate excess sebum in combination and oily skin.

2. **Daily Anti-Aging UV + Antioxidant protection**
- Advanced anti-aging filtering system

Protects from signs of skin aging caused by the sun thanks to a patented association of sunscreens for a daily broad-spectrum protection with advanced effectiveness against UVA rays, the main cause of skin aging.
- **Powerful CELL-OX SHIELD™ antioxidant complex**
With Senes Alata, a tropical leaf extract known to defend skin cells¹ for reinforced protection against UV-induced free radicals that accelerate skin aging process.

Results:

Skin is instantly younger-looking with a matte powdery finish. Imperfections visibly disappear. Day after day, skin is protected from signs of skin aging caused by the sun.

For use:

Apply each morning to clean face and neck.
Easy to spray and non comedogenic, this primer does not clog pores. If used with other skincare, use as a last step in regimen.
Can be used alone or under make-up. Creates a smooth skin surface for easier make-up glide and longer-lasting coverage.
¹ upper layers of skin
