Hydrogen Peroxide

Polyvinylpyrrolidone, Ethanol, Glycerin, Dipotassium Glycyrrhizate, Polyoxyethylene Hydrogenated Castor Oil, Methylparaben, sodium Saccharin, Mentha oil, Purified water

teeth whitening

keep out or reach of the children

- After getting rid of excess moisture on your teeth, apply a suitable amount of gel onto your teeth.
- Do not close your mouth until the gel is completely dried. (It takes about 30~60sec until it is evaporated).
- Rinse out with water after 30 minutes.
- Twice a day(in the morning and the evening), do the followings for two weeks

\*Be careful if you are with these troubles below.

- Allergic to hydrogen peroxide
- Infection in the mouth, damages on your teeth, gum diseases
- Teeth Calibration in progress

\*Specific Caution :

- If you have a toothache, reduce the usage to once a day. If your toothache lasts longer, stop using it for 2~3 days and start using it again.
- If gum diseases or intraoral troubles, stop using it.
- If you have a toothache continuously, then go to see a dentist.
- Use the appropriate amount of the product.
- Do not swallow.
- In case of accidental ingestion, seek professional assistance.
- When pregnant or lactating women use the product, check with a doctor before using it.
- In case of the usage by kids under 12 years of age, seek for professional assistance first.
- While the gel is applied onto your teeth, do not eat, drink, smoke, or wash your face.
- Be careful not to make clothes to be stained with the gel.

dental use only
