HOMEOPATHIC

OLIVE RECTAL SPRAY

Homeopathy is a natural approach to medicine that works without contra-indications (interference with other medications you may be taking) or side-effects, to stimulate the body's curative responses so that the body helps to heal itself. Homeopathy works under the principle of "like curing like" such that the medicine may initially cause a mild reaction in the body of symptoms similar to the symptoms that the product is trying to remedy.

To help this product work better and help you have a healthier immune system, it is suggested that you restrict your intake of sugars, carbohydrates, sodas, alcohol and fermented foods while using Olive Rectal Spray. Limiting the intake of these foods and beverages helps reduce the growth of yeast and candida.

Natural antimicrobial products from plant sources are proving to be potent preventatives, treatments, and stimulants of the body's natural immune system, without the side-effects of many modern pharmaceutical drugs.

Read the ingredients on the labels of the over-the-counter medications that are commonly used to treat anal infections and hemorrhoids and see if you are comfortable inserting the chemicals listed into your body. Seagate Olive Rectal Spray offers an alternative using 100% all-natural edible, chemical-free ingredients that provide relief for anal irritations.

Established in 1981 Seagate produces a variety of natural products from raw materials derived from their organic farming and fishing operations:

- Homeopathic Cold Remedies
- Immune Support
- Joint Support
- Homeopathic Topical Skin Care
- Healthy Heart and Circulation
- Diet Support and Colon-cleanse
- Organic fertilizer
- Organic vegetable concentrates
