-----

### **DRUG FACTS**

#### Active Ingredient

Povidone-Iodine 7.5%

(equivalent to 0.75% available iodine)

#### Purpose

Antiseptic

#### Uses

For preparation of skin prior to surgery

helps to reduce bacteria that can cause skin infection

for handwashing to reduce bacteria on skin

significantly reduces the number of microorganisms on the hands and forearms prior to surgery or patient care

#### Warnings

For External Use Only

Do not use this product

in the eyes

Stop use and ask a doctor

if irritation and redness develop

in rare instances of local irritation or sensitivity

When using this product

prolonged exposure to wet solution may cause irritation or, rarely, severe skin reactions

in pre-operative prepping, avoid "pooling" beneath the patient

Keep out of reach of children

If swallowed get medical help or contact a Poison Control Center right away

#### Directions

##### A. Surgical Hand Scrub:

wet hands with water

spread about 5 cc (1 teaspoonful) of Scrub over both hands and forearms

without adding more water, scrub thoroughly for about 5 minutes

use brush if desired. Clean thoroughly under fingernails.

add a little water and develop copious suds. Rinse thoroughly under running water.

repeat entire procedure using another 5 cc of Scrub

## B. Patient pre-operative skin preparation:

wet skin with water

apply Scrub (1 cc is sufficient to cover an area of 20-30 square inches) develop lather and scrub thoroughly for about 5 minutes

Rinse off using sterile gauze saturated with water

Other information

Protect from freezing

Avoid excessive heat

Dimethyl Glutarate (and) Dimethyl Succinate (and) Dimethyl Adipate. Disodium Phosphate, Glyceri, Hydroxethylcellulose, Water
