

ACTIDOSE- activated charcoal suspension
Padagis US LLC

ACTIDOSE® Drug Facts

Active ingredient (in each tube)

Activated Charcoal

Purpose

Poison Adsorbent

Uses

- For emergency use to adsorb swallowed poisons.

Warnings

- **Do not give** activated charcoal until after the patient has vomited unless directed by a health professional.
- **Do not use** in persons who are not fully conscious.
- **Do not use** this product, unless directed by a health professional, if turpentine, corrosives (such as alkalis (lye) and strong acids), or petroleum distillates (such as kerosene, gasoline, paint thinner, cleaning fluid or furniture polish), have been ingested.

Keep out of reach of children.

Directions

Oral dosage: 20 to 30 grams of activated charcoal in a minimum of 8 ounces of liquid or as directed by a health professional. Repeat dose immediately, if possible.

- Shake well.
- Snip tapered tip as indicated in drawing and remove. Holding the tube upright, carefully cut off tube closure. Reattach tapered tip and connect to any charcoal administration set or squeeze contents in a cup with a minimum of 4 ounces of liquid for patient to drink.
- If previous attempts to contact a poison control center, emergency medical facility, or health professional were unsuccessful, continue trying.
- Keep patient active and moving.
- Save the container of poison.

Other information

- Store at 20-25°C (68-77°F) [see USP Controlled Room Temperature]. Do not refrigerate.

Inactive Ingredients

Citric acid, glycerin, propylene glycol, sorbitol, and water.
