-----

### **Admire My Skin Ultra-Potent Brightening Serum**

#### **Active Ingredients**

##### **ACTIVE INGREDIENT(S):**

**Hydroquinone..... 2%**

#### **Purpose**

##### **PURPOSE:**

Skin Lightener

#### **Uses**

##### **USES:**

For the gradual fading of hyperpigmentation spots

#### **Warnings**

##### **WARNINGS:**

#### **When Using**

When using this product avoid contact with eyes. Some users of this product may experience a mild skin irritation.

#### **Stop Use**

Stop use and ask a doctor if skin irritation becomes severe.

#### **Keep out**

**Keep out of reach of children.** If swallowed, get medical help or contact a Poison Control Center right away.

#### **Sun Alert**

##### **SUN ALERT:**

The Alpha and Beta Hydroxy Acids (AHA/BHA) in this product may increase sun sensitivity.

Wear sunscreen or protective clothing during use to protect against sunburn and for a week afterwards. Continue sun protection after the lightening regimen to avoid UV-induced pigmentations.

#### **Dosage & Administration**

Adults: apply a small amount as a thin layer on the affected area once or twice daily, or use as directed by a doctor. Do not use on or around the eye area.

## Directions

### DIRECTIONS:

- If no improvement is seen after 3 months of treatment, use of this product should be discontinued. Lightning effect of this product may not be noticeable when used on very dark skin.
- Children under 12 years of age: do not use unless directed by a doctor.
- Sun exposure should be limited by using a sunscreen agent, or protective clothing to cover bleached skin when using and after using this product in order to prevent darkening from reoccurring.

## Inactive ingredients

### INACTIVE INGREDIENTS:

Propylene Glycol, Alcohol Denat., Azelaic Acid, Aqua (Water), Hamamelis Virginiana (Witch Hazel) Water, Lactic Acid (L), Kojic Acid, Salicylic Acid, Alcohol, Ascorbic Acid (L), Hydroxypropyl Methylcellulose, Sodium Hydroxide

## **IMPORTANT! PLEASE READ THOROUGHLY!**

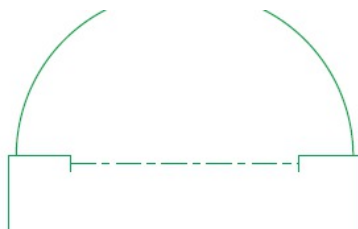

1. This serum is potent, so please do a small spot test first to make sure you do not have too much irritation. If you have sensitive skin you may start out using this serum every other day and working your way up to daily use.
2. Spots may appear darker at first before peeling off and revealing much lighter skin. This is normal and can be part of the process. Please be patient to achieve optimal results.
3. This serum can be drying, so please apply a high-quality moisturizer after allowing the serum to fully dry.
4. Do **NOT** use any products containing benzoyl peroxide, resorcinol or any other lightening/brightening products while using our serum.

Second accordion label, beneath the principal display panel

5. Always wear SPF when in the sun and continue to protect yourself from the sun even after no longer using the serum to prevent dark spots from returning.
6. This serum can take up to 4 weeks to start producing results, so please allow it sufficient time to work.
7. After using this product continuously for 60-90 days you'll want to give your skin a break and stop using for 30 days. You can begin re-using the serum after a 30 day break. Over-use can cause permanent darkening or resistance.
8. If you have any questions or concerns at any time, please contact us directly at [support@admiremyskin.com](mailto:support@admiremyskin.com). We are always happy to assist!
