

NUVA III- elastomer, silicone, for scar management
PureTek Corporation

Nuva™ III

Rx Only

For external use only

Description

Nuva™ III is a Silicone Gel Scar Dressing which is soft, comfortable, self-adhesive and Reusable.

Nuva™ III flattens, softens and fades both existing and new hypertrophic scars or keloids.

Indications and Usage

For non-invasive management of both existing and new hypertrophic scars or keloids.

Use under the direction of a medical practitioner.

Contraindications:

Nuva™ III is contraindicated for patients with sensitivity to silicone.

Warnings and Precautions:

For external use only.

- 1) Stop use, in case of itching, blisters, or skin irritation.
- 2) Do not apply to the surgical wound until at least 1 week after suture removal.
- 3) Skin surface must be cleaned before use. Using this product on uncleaned skin surface or applying it with excessive tightness may result in roseola (rash).
- 4) Product can be reused. If adhesive side is dirty, rinse with warm water and allow to be dried before reapplying .
- 5) The **Nuva™ III** Silicone Gel Scar Dressing should not be shared with other individuals.
- 6) Do not use on unhealed or open wounds.

Keep out of direct sunlight and Under 40°C (104 °F).

Storage time above these conditions should not exceed 18 hours.

Dosage & Administration:

Important:

Apply the **Nuva™ III** Silicone Gel Scar Dressing to the skin for 4-8 hours to ensure no adverse reactions occur. Once a trial application is completed without adverse reaction, the **Nuva™ III** Silicone Gel Scar Dressing may be applied to clean skin nightly before bed and removed each morning. Most treatment period will last for two months. In case of serious skin conditions, continue using for 3-6 months or as directed by your physician.

How to use:

1. Open pouch and remove **Nuva™ III** Silicone Gel Scar Dressing.
2. Cut the sheet to the size and shape of the affected skin area. If the skin area is larger, several sheets may be applied with edges aligned.
3. Remove the plastic film from the back of the sheet carefully and place the adhesive side onto clean skin. With good extensibility, it won't tend to fall off. However, during sleeping or doing a lot of exercise, you can use a thin flex yarn tape or an adhesive tape to keep it in place.
4. Replace the sheet weekly or when it is no longer secure on the skin.

How Supplied:

Nuva™ III is provided in a shipping pouch containing three (3) individually wrapped pouches. Each pouch contains one **Nuva™ III** 10 cm x 12 cm pad.

Storage and Handling:

Keep out of direct sunlight and under 40°C (104°F).

Storage time above these conditions should not exceed 18 hours.

Adverse Reactions:

In rare circumstances, use of **Nuva™ III** may cause skin irritations including redness, stinging or other irritations. Those effects should go away after use of **Nuva™ III** is discontinued.
