### **Fish Bendazole**

#### **Active Ingredients (in each packet):**

Fenbendazole.....250 mg

#### **Inactive Ingredients:**

Dextrose, maltodextrin

#### **Distributed by:**

Thomas Labs®  
Tolleson, AZ 85353  
ThomasLabs.com

Fish Bendazole is a supportive agent designed to remove worms and other parasites from fresh and saltwater aquariums and from within the fish themselves. Effective against common organism such as *Planaria*, *Camallanus*, *Aiptasia anemones*, and more, it is one of the fastest and most effective agents against aquatic parasites and other dangerous rogue organisms.

#### **Directions:**

Administer 1 packet (250 mg) with approximately 4 ounces of food and let soak for 30 minutes. It's suggested to use tank water to wet the food, allowing the absorption of Fish Bendazole. Use for a 3-day duration with water changes and filtration between treatments. **Do not use in tanks with desired starfish, snails, anemones, Cnidarians, mushrooms, or corals as it will have a negative effect and possibly cause death.**

#### **Warnings:**

For aquarium and ornamental fish only. Not for human use. This product should not be given to fish intended for human consumption. Keep out of the reach of children and animals. In case of accidental overdose, contact a health professional immediately.

#### **Storage:**

Keep container tightly closed and in a cool, dry place.
