

PARODONTAX ACTIVE GUM REPAIR WHITENING- stannous fluoride paste
Haleon US Holdings LLC

Drug Facts

Active ingredient

Stannous fluoride 0.454% (0.15% w/v fluoride ion)

Purposes

Anticavity

Antigingivitis

Uses

- aids in the prevention of dental cavities.
- helps control bleeding gums.
- helps interfere with harmful effects of plaque associated with gingivitis.

Warnings

Stop use and ask a dentist if

- gingivitis, bleeding, or redness persists for more than 2 weeks.
- you have painful or swollen gums, pus from the gum line, loose teeth, or increasing spacing between the teeth. These may be signs or symptoms of periodontitis, a serious form of gum disease.

Keep out of reach of children under 6 years of age.

If more than used for brushing is accidentally swallowed, get medical help or contact a Poison Control Center right away.

Directions

- **adults and children 2 years of age and older:**
- brush teeth thoroughly, preferably after each meal or at least twice a day, and not more than 3 times a day, or as directed by a dentist or doctor. Minimize swallowing. Spit out after brushing.
- to minimize swallowing for children under 6 years of age, use a pea-sized amount and supervise brushing and rinsing until good habits are established.
- **children under 2 years of age:** Consult a dentist or doctor.

Other information

- products containing stannous fluoride may produce surface staining of the teeth. Adequate toothbrushing may prevent these stains which are not harmful or

permanent and may be removed by your dentist.

- this product is specially formulated to help prevent staining.
- do not store above 25°C (77°F)

Inactive Ingredients

glycerin, PEG-8, hydrated silica, pentasodium triphosphate, flavor, sodium lauryl sulfate, titanium dioxide, polyacrylic acid, cocamidopropyl betaine, sodium saccharin

parodontax ACTIVE GUM REPAIR

To keep your gums healthy,

It's important for the seal between the gum and the teeth to be tight. When plaque bacteria builds up along the gum line, this may loosen the gum seal which leads to gum problems.

New parodontax Active Gum Repair is a daily toothpaste formulated to help reverse early signs of early gum damage by targeting plaque, the main cause of gum problems. The active ingredient kills plaque bacteria at the gum line to help keep the seal tight between gums and teeth and prevent early gum problems.

Kills bacteria to help repair gums

For tight gum seal
