Warnings

Do not use if you are now taking a prescription monoamine oxidase inhibitor (MAOI) (certain drugs for depression, psychiatric or emotional conditions or Parkinson's disease), or for 2 weeks after stopping the MAOI drug. If you do not know if your prescription drug contains an MAOI, ask a doctor or pharmacist before taking this product.

Ask a doctor before use if you have:

- heart disease
- high blood pressure
- thyroid disease
- diabetes
- trouble urinating due to an enlarged prostate gland
- a breathing problem such as emphysema or chronic bronchitis
- glaucoma
- persistent or chronic cough such as occurs with smoking, asthma
- chronic bronchitis, or emphysema
- excessive phlegm (mucus)

Ask a doctor or pharmacist before use if you are taking sedatives or tranquilizers.

When using this product:

- do not exceed recommended dose
- excitability may occur, especially in children
- drowsiness may occur
- alcohol, sedatives, and tranquilizers may increase drowsiness
- avoid alcoholic drinks
- be careful when driving a motor vehicle or operating machinery

Stop use and ask a doctor if:

- nervousness, dizziness, or sleeplessness occurs
- symptoms do not improve within 7 days or occur with a fever
- cough persists for more than 1 week, tends to recur, or is accompanied by a fever, rash or persistent headache

If pregnant or breast-feeding, ask a health professional before use

Keep out of reach of children. In case of overdose, get medical help or contact a Poison Control Center right away (1-800-222-1222).

Directions

- **Adults and Children 12 years and over:** Take 1 tablet every 6-8 hours. Do not take more than 4 tablets in a 24-hour period.
- **Children 6 to 12 years of age:** Take 1/2 tablet every 6-8 hours. Do not take more than 2 tablets in a 24-hour period.
- **Children under 6 years: Consult a physician.**

Other information
