AUSTRALIAN SUNSCREEN

SENSITIVE face

MINERAL SUNSCREEN WITH
HYDRATING HYALURONIC ACID,
CAFFEINE AND
ANTIOXIDANT GREEN TEA

At Blue Lizard we love
sunshine too. It enhances our
mood, warms our bodies and
keeps us healthy...

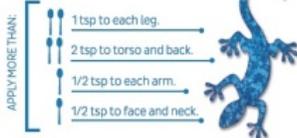

however, sun exposure can also
cause problems like premature
aging of the skin and, worse still,
cancer. So protection, **real**
protection, is critical - which is
fine by us because that is what
Blue Lizard sunscreens have
been designed to do.

We are passionate about **shielding**
you from the sun's harmful UV rays
with mineral products that are fun,
easy-to-use and offer **real protection**
for you and your family.

That is why we have been **trusted**
by dermatologists for over 20 years.

Dermatologists Recommend:

1 ounce (6 tsp.) of sunscreen to cover
exposed areas of the body.

Adjust the amount of sunscreen
based on your body size.
