-----

**Zinc Sulfate Monohydrate Label**

Active Ingredient: Zinc Sulfate Monohydrate [Powder for use in solution]

Purpose: Zinc Sulphate Monohydrate powder is used as an aid in hoof rot management under veterinary guidance.

**Warnings:**

- Zinc can be toxic to sheep. Do not allow animals to eat or drink the zinc sulphate powder or hoof bath solution.
- Know the volume of the hoof bath and calculate the amount of zinc sulphate carefully.
- Do not overdose by using more zinc sulphate than what is recommended by your veterinarian.

**For External Use Only**

When Using this Product: By placing a clean water bath ahead of the treatment bath, animals will clean their hooves to some extent and keep the treatment bath clean longer. Hoof baths should only be part of an overall program that includes proper nutrition, regular hoof trimming, and hoof injury prevention.

Keep out of reach of children.
