SFP INC. OXY-TD SANITIZING PRE TEAT DIP

DIRECTIONS FOR TEAT DIPPING:

Pre-Milking:

Fill teat cup with OXY-TD. Do not dilute. Before each cow is milked, dip/spray the teats as far as possible into the teat cup containing OXY-TD. Wipe teats dry after dipping/spraying, using single-service towels to avoid contamination of milk.

Udders and teats which are heavily soiled should be washed before using a pre-milking teat dip/spray. Teats should then be dried with a single service towel and dipped/sprayed in OXY-TD, wiping the teats dry before milking.

Teats should be thoroughly washed and dried before milking, using potable water, a suitable cleanser* and individual paper towels to remove soil and to prevent contamination of milk.

IMPORTANT: Do not mix OXY-TD with any other teat dip/spray or other products.

NOTE: OXY-TD is not intended to cure or help the healing of chapped or irritated teats. In case of teat irritation or chapping have the condition examined.

ACTIVE INGREDIENTS:

Active Hydrogen Peroxide...1.0%

DANGER: Keep Out Of Reach Of Children. Can Cause Eye Damage. Protect eyes when handling. DO NOT get in eyes or on clothing. Harmful if swallowed. Avoid contamination of food.

FIRST AID:

EYES – In case of contact with eyes, flush immediately with plenty of water for at least 15 minutes. Call a physician.

INTERNAL – **DO NOT TAKE INTERNALLY.** If swallowed, induce vomiting and call a physician immediately.

CAUTION: Avoid freezing – if frozen, let thaw and shake thoroughly before using.
