- Hay fever and sinusitis

So unique that it's patented

US Patent 6899903

Directions for use

Squirt some of the solution up your nose.

For best results, you are rinsing your sinuses with Sinus Cleanser. Lay on the floor. Close off the soft palate on the back of the throat that allows people to swim underwater without the water going down their throat. Squirt the solution into

your sinuses. Plug your nose. Breathe through your mouth. Hold for a count of 30. Then stand up while still plugging your nose with your fingers and keeping the solution in the sinuses. Bend over the sink and allow the front of the sinuses to be rinsed. Hold for a count of 30 while breathing through the mouth. Then expel the solution and mucus into the sink. Blow your nose. Do this procedure no more than once daily. See photos for examples.
