Subject: Temporary distribution of Sterile water and 0.9% Sodium chloride Semi-Rigid Bottle (SRB) Irrigation with non-U.S. labeling to address drug shortages

Dear Healthcare Professional,

In order to address shortages of critical irrigation drug products, ICU Medical is coordinating with the U.S. Food and Drug Administration (FDA) to increase the availability of products from our portfolio which are manufactured and intended for the Canadian market. Temporarily and effective immediately, ICU Medical will make available for sale in the US the products listed below. These products are manufactured in the same facility and to the same specifications as ICU Medical's FDA-approved drug products; however, they are not labeled with current FDA-approved labeling. The information contained in this letter pertains only to the products listed below, which are not approved by FDA.

Product Description	Size	Canadian DIN	NDC
Sterile Water for Irrigation, USP	1000 mL	DIN 00038229	0990-8139-10
0.9% Sodium Chloride Irrigation, USP	250 mL	DIN 00037834	0990-5138-25
0.9% Sodium Chloride Irrigation, USP	500 mL	DIN 00037834	0990-5138-50
0.9% Sodium Chloride Irrigation, USP	1000 mL	DIN 00037834	0990-8138-10

There are some key differences in the labeling between the U.S. FDA-approved products and the Canadian products. Please see the product comparison tables at the end of this letter for additional information.

The barcode may not register accurately on the U.S. scanning systems. Institutions should manually input the product into their systems to confirm that barcode systems provide correct information when the product is scanned. Alternative procedures should

be followed to assure that the correct drug product is being used and administered to individual patients.

The U.S. FDA-approved products are available by prescription only in the U.S. However, the Canadian products do not have the statement "Rx only" on their labeling.

# Please refer to the FDA-approved package insert for the full prescribing information of each drug product.

If you have any questions about ordering SRB irrigation products, please contact ICU Medical Customer Care at (877) 946-7747 or email uscustomercare@icumed.com. For medical questions, please call ICU Medical Information at (800) 241-4002 or email <u>Med-info\_US@icumed.com</u>.

To report adverse events or quality problems experienced with the use of this product, please call ICU Medical Global Complaint Management at (844) 654-7780 or email <u>ProductComplaintsPP@icumed.com</u>.

Adverse events or quality problems experienced with the use of this product may also be reported to the FDA's MedWatch Adverse Event Reporting Program either online, or regular mail, or by fax:

- Complete and submit the report **Online:** www.fda.gov/medwatch/report.htm
- Regular mail or Fax: Download form www.fda.gov/MedWatch/getforms.htm or call (800) 332-1088 to request a reporting form, then complete and return to the address on the pre-addressed form, or submit by fax to (800) FDA-0178 (1-800-332-0178).

Our team is working with customers to mitigate the impact of this shortage and are committed to returning to full levels of production as soon as possible.

Sincerely,

Stuart Digitally signed by Stuart Green Green Date: 2024.09.03 08:16:48 -05'00' Digitally signed Strat Kun Date: 2024.09.03 08:16:48 -05'00'

Stuart Green Senior Director, Quality
