Zinc chloride 0.15%

Purpose

Oral antiseptic, Oral pain reliever, Oral astringent

Uses

- for the temporary relief of pain due to minor irritation or injury of the mouth and gums
- first aid to help prevent infection in minor oral irritation

Warnings

Methemoglobinemia warning: use of this product may cause methemoglobinemia, a serious condition that must be treated promptly because it reduces the amount of oxygen carried in blood. This can occur even if you have used this product before. Stop use and seek immediate medical attention if you or a child in your care develops: pale, gray, or blue colored skin (cyanosis), headache, rapid heart rate, shortness of breath, dizziness or lightheadedness, fatigue or lack of energy

Allergy alert: do not use this product if you have a history of allergy to local anesthetics such as procaine, butacaine, benzocaine or other "caine" anesthetics

Do not use

- more than directed
- for more than 7 days unless directed by a dentist or doctor
- for teething
- in children under 2 years of age

Stop use and ask a doctor if

- symptoms do not improve in 7 days
- swelling, rash or fever develops

- irritation, pain or redness persists or worsens

Keep out of reach of children

In case of overdose or allergic reaction, get medical help or contact a Poison Control Center right away

Directions

Adults and children 2 years of age and older

- Apply to affected area up to 4 times daily or as directed by a dentist or doctor

Children between 2 and 12 years of age

- Ask a doctor before use. Should be supervised in the use of this product

Children under 2 years of age

- Do not use

Other information

- do not use if Tamper-Evident Tab is open before first use
- avoid using toothpaste or drinking soft drinks or fruit juices for at least one hour after applying

Inactive ingredients

ammonium glycyrrhizate, chamomile, flavor, PEG-8, PEG-75, PEG/PPG 116/66 copolymer, poloxamer 407, sodium saccharin, sorbic acid, titanium dioxide, water
