Avva Vaginal Douche Gel

Active ingredients	Purpose
Benzalkonium Chloride 0.1%	Antimicrobial

Uses: for vaginal cleansing. Kills germs.

Keep out of reach of children

Stop use and ask doctor if: Rash or irritation and redness develops.

Discontinue use if any burning, itching, or irritation of the vagina occurs during use. Wash and douche with water.

Do not douche to prevent pregnancy

During pregnancy

If you have symptoms of pelvic inflammatory disease (PID) or sexually transmitted disease (STD)

To self treat or prevent a STD or PID

After exposure to STD stop using this product and consult a doctor if douching results in pain, soreness, swelling, redness, itching excessive dryness or irritation, or symptoms continue after 7 days. These may indicate a serious condition.

If swallowed, get medical help or contact a poison control center right away.

External use only

Do not use in eyes.

Directions

Insert the gel into the vagina when cleansing is desired, one unit (5.5 ml) each time.

Please read the following instructions carefully before use.

1. Take off any plastic around the tube.
2. Remove the small plastic tip from the top of the applicator.
3. Gently insert the small end of the applicator deep into the vagina. While in this position, squeeze the contents of the applicator to release the gel. Remove the applicator and discard it in a waste container.

Do not use this product if the package seal is broken

Children under 12 years of age: ask doctor.

Inactive Ingredients

Carbomer, Glycerin, Hydroxypropylmethylcellulose, Methylparaben, sodium hydroxide, water
