

EYESALINE EMERGENCY EYEWASH CONCENTRATE- water concentrate
Honeywell Safety Products USA, Inc

0498-0101: Eyesaline Emergency Eyewash Concentrate

Drug Facts

Active ingredient (before dilution)

Purified Water 70%

Purpose

Emergency eyewash

Uses

for flushing the eye to reduce chances of severe injury caused by acid, alkali, or particulate contamination

Warnings

For external use only.

Do not use

- in concentrated form
- while wearing contact lenses
- if solution changes color or becomes cloudy
- for injection
- in intraocular surgery
- internally
- if eye is lacerated or object is embedded

Ask a doctor if you have

- eye pain
- changes in vision
- redness or irritation of the eye after use
- an injury caused by an alkali

Keep out of reach of children. If swallowed, get medical help or contact a Poison Control Center right away.

Directions

- prepare sufficient quantity of constituted eyewash solution in advance of an emergency
- when preparing solution, wear protective eyewear and gloves and follow sanitary procedures
- prepare eyewash solution by diluting 1 part concentrate to 60 parts of potable water as follows:
- measure 1/3 of required amount of potable water into mixing container of eyewash unit
- to this, add 1/3 of required amount of concentrate
- agitate or mix thoroughly

- repeat two more times until required amount of solution is prepared
- discard prepared solution after 6 months

Other information do not freeze

Inactive ingredients benzalkonium chloride, edetate disodium, sodium chloride, sodium phosphate dibasic, sodium phosphate monobasic
