Burow's solution and hydrocortisone

For relief of inflammatory pruritic conditions in dogs

For animal use only

Keep out of reach of children

Indications:

A topical treatment for the relief of inflammatory pruritic conditions in dogs.

Hydrocortisone provides antiinflammatory and anti-pruritic activity, while Burow's Solution is an astringent for drying of moist dermatitis while providing cooling relief of discomfort.

Dosage:

Apply 3 to 4 times daily.

Precautions:

For topical use only. Not intended for deep-seated infections. Not for use in the eyes.

Ingredients:

Each mL contains:

Hydrocortisone.....10 mg

Burow's solution.....20 mg

In a water miscible base containing propylene glycol.

Contraindication:

As with any topical hydrocortisone product, Burow's solution and hydrocortisone should not be used in the presence of tuberculosis of the skin.

Storage:

Store at controlled room temperature between 15°-30°C (59°-86°F). Keep container tightly closed when not in use.
