Clunia® EasyDent Spray

Active Ingredient: Zinc gluconate 1.5%

Also contains deionized water, taurine, methylparaben, propylparaben, FD&C Blue 1.

For use in dogs, cats, small mammals, exotics and horses.

Characteristics:

- Highly accepted oral spray of neutral pH.
- Alcohol and flavor free.
- Stimulates gum healing: zinc gluconate participates in collagen production and recovery of damaged tissues.
- Neutralizes mouth odors: taurine chelates sulfur compounds that produce halitosis.
- Does not stain enamel.
- Easy application: can be used with or without brushing.

Recommended use:

- Cleans and refreshes oral cavity and teeth for optimal oral health.
- Periodontal problems.
- Gingival healing: oral wounds and lacerations.
- Before and after professional dental procedures to extend its benefits.
- Helps reduce plaque formation.
- Controls halitosis from teeth and gums.
- Helps maintain optimal oral health and overall wellbeing to ensure animal can properly chew throughout life and reduce secondary health problems.

Directions for use:

Apply spray over the teeth on both sides of the upper gums. For animals over 20 lbs, apply an extra spray on the front upper teeth. Repeat daily for maximum effectiveness. For best result, repeat daily and avoid offering water or food for 30 minutes before and after application.

The natural cleansing action of the mouth will distribute the spray to the most remote areas. For best results, avoid offering water or food for 30 minutes before and after the application. To maximize acceptance, may apply spray to soft cloth, swab or toothbrush and wipe on teeth and gums. The oral health of the animal should be regularly assessed by your veterinarian.

Cautions:

For animal use only. Store container tightly closed, in a cool, dry place, protected from sunlight and out of reach of children and animals. Store at room temperature. Protect from freezing.

VetNova

Ingrediente Activo: Gluconato de Zinc 1,5%
También contiene: agua desionizada, taurina, metilparabeno, propilparabeno, FD&C Azul 1.

Para perros, gatos, exóticos y caballos.

Características:

- Spray oral de alta aceptación y pH neutro.
- Sin alcohol ni sabor.
- Estimula la cicatrización de las encías: el gluconato de zinc participa en la producción de colágeno y en la recuperación de los tejidos dañados.
- Neutraliza el mal olor: la taurina que la los compuestos azufrados que producen la halitosis.
- No mancha el esmalte.
- Fácil aplicación: se puede utilizar con o sin cepillado.

Uso recomendado:

- Limpia y refresca la cavidad oral y los dientes para una salud oral óptima.
- Problemas periodontales.
- Cicatrización gingival: heridas orales y laceraciones.
- Antes y después de procedimientos dentales profesionales para alargar sus beneficios.
- Ayuda a reducir la formación de placa.
- Controla la halitosis procedente de dientes y encías.
- Ayuda a mantener una salud oral óptima y bienestar general para garantizar que el animal pueda masticar adecuadamente durante toda la vida y reducir los problemas de salud secundarios.

Modo de empleo:

Pulverizar el producto sobre los dientes a ambos lados de las encías superiores. Para animales de más de 20 libras, aplicar una pulverización adicional en los dientes superiores frontales. Repetir diariamente para obtener la máxima eficacia.

La acción limpiadora natural de la boca distribuirá el producto a las zonas más remotas. Para obtener mejores resultados, evitar ofrecer agua o alimentos durante 30 minutos antes y después de la aplicación. Para maximizar la aceptación, puede aplicarse el producto en una gasa, hisopo o cepillo de dientes y limpiar los dientes y las encías. La salud oral del animal debe ser evaluada regularmente por su veterinario.

Precauciones:

Solo para uso animal. Guardar el envase bien cerrado, en un lugar fresco y seco, protegido de la luz solar y fuera del alcance de niños y animales. Conservar a temperatura ambiente. Proteger de la congelación.
