Instruction manual of hydrogen peroxide compound disinfectant

It is suitable for disinfection of general object surface, skin, food processing tools and equipment, environment, etc.

Killing performance : it can kill pathogenic microorganisms such as enteropathogenic bacteria, pyogenic cocci, Pseudomonas aeruginosa, Candida albicans and spores.

Dosage form and specification : liquid, 500ml

Effective component and content : hydrogen peroxide \geq 2.8%, appropriate amount of active silver ion.

Product features :

1. Colorless, tasteless, easy to use, no harm to human body.
2. It can be used for disinfection and sterilization of various surfaces.
3. It is non-toxic, harmless and residue free, and decomposes into water and oxygen after sterilization.

Usage : it is directly used for disinfection.

| Disinfection object | Disinfection time (min) | Disinfection method |
|--|-------------------------|--|
| Skin | 5 | Treat skin directly. |
| General object surface and environment | 30 | Treat directly object surface or spray. |
| Food processing tools and equipment | 30 | Treat directly cleaned processing tools and equipment. |

Note: there is a small amount of sediment stored for a long time, and it should be shaken evenly when used.

Hygiene license of production enterprise :YWXZZ (2003) No. 0205

Executive standard :Q / CKD 11

Precautions :

1. This product is a disinfectant for external use and should not be taken orally. Keep out of reach of children.
2. This product cannot be used together with other disinfectants.
3. Store in a cool place away from light.

Validity period :two years

Production date / batch No. :See package
