-----  
Store it in a cool and dry place.

water

Environmental surface: 10 mins Spraying to wet.

Object surface: 10 mins Soaking scrubbing and spraying.

Fabrics: 10 mins Soaking

BENZALKONIUM BROMIDE

HEXAMETHYLENETETRAMINE

keep out of reach of children

Disinfection

Sterilization

1. Disinfectants for external use should not be taken orally, and keep it out of children's reach.

2. Avoid contact with antagonists.

3. Store it in a cool and dry place. If it is kept in a low temperature for a long time, it may precipitate, but it will not affect the quality of the product. It can be used only when it is heated to room temperature.

### [ Product name ] :

Hygeaar cleaning disinfectant is a typical environmental protection compound disinfectant in line with the development trend of international disinfection products. It is a new product developed on basis of the first generation of Youjie disinfectant and the application of updated scientific and technological achievements, which has been improved in many places and widely verified on the spot. All of the new products are made of disinfection raw materials for food and have independent intellectual property rights. The main effective components were hexamethylenetetramine 9.0-11.0% (W/V), Benzyl(dodecyl)dimethylammonium Bromide 4.5-5.5% (W/V). This product can effectively kill intestinal pathogenic bacteria, pyogenic cocci. It has no corrosion to equipment and instruments. It can realize the real cleaning and disinfection in one. It is applicable to the cleaning and disinfection of environment surface, object surface (including food and drug processing equipment pipeline, food and drug processing equipment, food and drug packaging, food and drug containers, etc.) and fabric.

### [ Application method ] :

Disinfection Object	Preparation Method	Disinfection Time	Disinfection Method
Environmental surface	1:100	10 mins	Spraying to wet
Object surface	1:100	10 mins	Soaking, scrubbing and spraying
Fabrics	1:100	10 mins	Soaking

### [ Notes ]

1. Disinfectants for external use should not be taken orally, and keep it out of children's reach.
2. Avoid contact with antagonists.
3. Store it in a cool and dry place. If it is kept in a low temperature for a long time, it may precipitate, but it will not affect the quality of the product. It can be used only when it is heated to room temperature.
