Goff-Bol™ Max

Product Description

Goff-Bol Max is a unique formulation of *Solanum glaucophyllum* - a source of Vitamin D3 in the form of 1,25-Dihydroxycholecalciferol-glycosides - as well as calcium sources with immediate and sustained release that together support normal blood calcium levels in freshening cows.

Directions for Use

Administer a package of two boluses immediately after calving. Open a bolus package and insert two Goff-Bol Max boluses into the Goff-Bol Applicator. Insert the bolus applicator into the back of the cow's mouth and deposit the bolus, allowing the cow time to swallow. Repeat with second bolus. After administration, allow access to water. This product should not be used in conjunction with an anionic/DCAD diet.

Analytical Constituents

Each dose of 2 boluses (340g) contains:

21.5%-25.5% Calcium

200µg 1,25-dihydroxycholecalciferol-glycosides

Active Ingredients

Calcium Chloride, Calcium lactate, Calcium acetate, *Solanum glaucophyllum*

Inactive Ingredients

Magnesium Stearate, Xanthan Gum

Precautions

For bovine use only. Use only as intended. Keep out of reach of pets and children. Do not administer to down animals or animals that cannot swallow. Administering forcibly may result in serious injury or death of animal. Do not administer broken boluses. Do not administer more than one dose (2 boluses) to any cow.
