

**GILTUSS HONEY COUGH AND CHEST CONGESTION- dextromethorphan hbr,
guaifenesin solution
Gil Pharmaceutical Corp**

Giltuss Honey Cough & Chest Congestion

Drug Facts

Active ingredients (in each 10 mL)

Dextromethorphan HBr, 20 mg

Guaifenesin, 200 mg

Purposes

Cough Suppressant

Expectorant

Uses

- temporarily relieves:
- cough due to minor throat and bronchial irritation associated with the common cold or inhaled irritants
- the intensity of coughing
- the impulse to cough to help your child get to sleep
- helps loosen phlegm (mucus) and thin bronchial secretions to make coughs more productive and drain bronchial tubes

Warnings

Do not use if you are now taking a prescription monoamine oxidase inhibitor (MAOI) (certain drugs for depression, psychiatric, or emotional conditions, or Parkinson's disease), or for 2 weeks after stopping the MAOI drug. If you do not know if your prescription drug contains an MAOI, ask a doctor or pharmacist before taking this product.

Ask a doctor before use if you have

- a cough with too much phlegm (mucus)
- a persistent or chronic cough as occurs with smoking, asthma, chronic bronchitis, or emphysema

Stop use and ask a doctor if cough lasts for more than 7 days, comes back, or is accompanied by fever, rash or persistent headache. These could be signs of a serious condition.

If pregnant or breast-feeding, ask a health professional before use.

Keep out of reach of children. In case of overdose, get medical help or contact a Poison Control Center right away.

Directions

- do not take more than 6 doses in any 24-hour period
- use enclosed dosing cup
- **keep dosage cup for use with this product**

- ml = milliliters

adults and children 12 years and over	10 mL every 4 hours
children 6 to under 12 years of age	5 mL every 4 hours
