WHAT IS Cloravir?

Cloravir is a highly effective non-toxic, antimicrobial hand sanitizer that reduces your exposure to germs and provides **peace of mind**.

HOW DOES IT WORK?

The active ingredient Hypochlorous Acid breaks the cell wall of germs, destroying them. It is a **powerful oxidizing agent** formulated with no residue or fumes and **does not damage the skin**.

IS IT SAFE?

Hypochlorous Acid is a **naturally occurring acid in your body** that is used to kill germs. Our formulation provides the same germ fighting function.

WHY IS Cloravir BETTER?

Alcohol and other chemicals typically found today can dry out or damage your body. **Cloravir** is safe for skin, children, pets and the environment even with regular use.

Cloravir
