

PHARMASAL-T - salicylic acid, coal tar solution, menthol shampoo
Animal Pharmaceuticals

Disclaimer: This drug has not been found by FDA to be safe and effective, and this labeling has not been approved by FDA. For further information about unapproved drugs, click here.

Drug Facts

Active Ingredients	Purpose
Salicylic Acid 3% (w/w)	Keratolytic
Coal Tar Solution 2% (w/w)	Antiseborrheic
Menthol1% (w/w)	Antipruritic

Uses an antiseborrheic, mentholated, fragranced soap free shampoo consisting of mild surfactants and coat conditioners.

Warnings

- For Animal Use Only
- Consult your veterinarian before use

Ask a veterinarian before use if your animal is using other medications.

When Using this Product

- Avoid contact with eyes and mucous membranes
- For topical use only on dogs and horses

NOT FOR USE ON CATS

Keep out of reach of children. In case of contact with eyes or mucous membranes, rinse thoroughly with water. If irritation develops or increases, discontinue use and consult your veterinarian.

Directions

Shake well before use. Wet the hair coat with warm water and apply a sufficient amount of shampoo to create a rich lather. Massage medicated shampoo into the wet hair coat, lather freely. Rinse and repeat. Allow to remain on hair coat for 5 to 10 minutes, then rinse thoroughly with clean water.

Other Information

- store at room temperature (59°F - 86°F)
- store in a cool dry place.

At Animal Pharmaceuticals we strive to provide the best nutritional and topical treatments for your pet by going above and beyond...and we don't stop there. We know that caring for your pet is just as important as caring for your own health, so we've developed and implemented systems that make things easier on you and convenient for your Veterinarian.

REFILL REMINDER
Our revolutionary labels consist of two important elements.
1. The Refill Reminder portion of the label enables your Veterinarian to provide you with the name of the product, and any special instructions that may be required for your pet.
2. The Peel and Stick portion of the label provides a simple method for your Vet to enter the same information on to your pet's chart. No confusion means your pet is receiving the best care possible.

PHARMASOME TECHNOLOGY
Retrieving and sustaining the most nutrients and healthful ingredients is the foundation for this technology. Phasomes enhance the effects of the functional ingredients. The nano-sized Phasome particles encapsulate functional ingredients, adhere to the surface and penetrate through skin, and thus carry the ingredients to areas where they can exert their effects efficiently. Additionally and as always you'll find that all of our bottles and containers are made of recyclable plastic. Please help us help the environment by recycling.
