MultiVit Sun Protector

ESSENTIAL SPF 30

MultiVit Sun Protector protects skin from UVA/UVB and IR rays, each which induce skin damage in different ways. It successfully demonstrates effective protection from all. MultiVit Sun Protector contains Encapsulated UV Filter that provides skin protection as the UV filter is prevented from coming into direct contact with the skin's surface. It further contains Ectoin, a multi-talented ingredient, which reduces the formation of sunburn cells & the damage provoked by UVA-irradiation. Includes Vitamins B, C & E.

Benefits of MultiVit Sun Protector:

- Protects against UVA / UVB / IR rays and free radicals
- Increases cell resistance in conditions of temperature stress
- Improves skin hydration
- Prevents matrix macromolecules damage

Directions for Use: Apply MultiVit Sun Protector as the last step of your daytime skincare regime.

Warnings: For external use only. Avoid direct contact with the eyes. Keep out of reach of children. Do not stay too long in the sun, even while using a sunscreen product. Keep babies and young children out of direct sunlight. Over-exposure to the sun is a serious health threat. Apply the sunscreen product before exposure. Reapply frequently to maintain protection, especially after perspiring, swimming or towelling.
