

INVERNESS EAR CARE ANTISEPTIC- benzalkonium chloride solution

The Richline Group

Inverness EAR CARE ANTISEPTIC

Inverness EAR CARE ANTISEPTIC

Active Ingredient

Benzalkonium Chloride 0.12% w/w

Purpose

Ear Care Antiseptic

Use for care of your pierced ears

Warnings

- For external use only.
- Do not ingest.
- If swallowed, get medical help or contact Poison Control Center immediately.
- In case of contact with eyes, flush with water.

SEEK MEDICAL ATTENTION IF IRRITATION PERSISTS

- Keep out of reach of children.
- Pain, redness, or swelling is not a normal result of ear piercing.
- Call your doctor if any type of discomfort occurs.
- Remove earrings immediately.

Directions

For optimal results, follow these steps every day:

- Clean hands thoroughly with antibacterial soap before touching ears and earrings.
- Using cotton swab, cleanse front and back of ears 3 times a day with Ear Care Antiseptic. Gently rotate the earrings 2 or 3 times a day. **DO NOT** remove earrings.
- Keep hair, hair spray, shampoo, soap, cosmetics, perfume, etc. away from newly pierced ears. After shampooing, exercising, swimming, hot tubs, or use of any of the above products, rinse your ears in clear water and reapply Ear Care Antiseptic, (step 2), to your ears.

Other Information

EAR LOBE PIERCING

- Leave earrings in your ears for 6 weeks.
- After 6 weeks the earrings may be removed; however, some type of post earring

must be worn at all time during the first 6 months.

EAR CARTILAGE PIERCING

- Leave earrings in your ears for 12 weeks.
- After 12 weeks the earrings may be removed; however, some type of post earring must be worn at all times during the first year.

Inactive Ingredient

Purified water.
