Medi UV Protection 120

SPF50+/PA++++

Ultraviolet UVA & UVB completely blocked by upgraded cutoff filter.

We applied SPF 50+ for strong blocking effect of UVB which affects skin tone (burns, spots, freckles). And have increased the blocking rate to 4 grades (PA +++) to prevent UVA that causes skin aging (wrinkles, melanin pigment increase).

Therefore, about 3 times longer than PA, 12 hours more powerful and tightly, we will block ultraviolet rays.
