biovanta Lemon & Honey

Drug Facts

Drug Facts

Active Ingredient

Active ingredient (in each lozenge):

Menthol 5mg.....Antitussive

Acetyl Salicylic Acid* (NSAID)* 6 mg.....Analgesic

*nonsteroidal anti-inflammatory drug

Purpose

Antitussive and Analgesic

Uses

- Temporarily relieves cough due to minor throat and bronchial irritation associated with the common cold or inhaled irritants.
- For the temporary relief of minor aches and pains associated with a sore throat.

Warnings

Reye's syndrome: Children and teenagers who have or are recovering from chicken pox or flu-like symptoms should not use this product. When using this product, if changes in behavior with nausea and vomiting occur, consult a doctor because these symptoms could be an early sign of Reye's syndrome, a rare but serious illness.

Allergy Alert: Aspirin may cause a severe allergic reaction, which may include:

- Asthma (wheezing) ■ Hives ■ Facial swelling ■ Shock

Stomach bleeding warning: This product contains an NSAID, which may cause severe stomach bleeding. The chance is higher if the user:

- has had stomach ulcers or bleeding problems
- takes a blood thinning (anticoagulant) or steroid drug

- takes other drugs containing prescription or nonprescription NSAIDs (e.g. aspirin, ibuprofen, naproxen, or others)
- takes more than directed or for a longer time than directed
- is age 60 or older
- has 3 or more alcoholic drinks per day while using this product

Ask a doctor before use

Ask a doctor before use if you have:

- a history of stomach problems, such as heartburn
- high blood pressure, heart disease, liver cirrhosis, or kidney disease
- taken a diuretic ■ not been drinking fluids ■ lost a lot of fluid due to vomiting or diarrhea

Stop use

Stop use of this product and ask a healthcare provider if user experiences any of the following signs or stomach bleeding:

feels faint ■ vomits blood ■ has bloody or black stools ■ has stomach pain that does not get better

Pregnancy: If pregnant or breast-feeding

If pregnant or breast-feeding always ask your healthcare provider before use. It is especially important not to use aspirin during the last 3 months of pregnancy unless directed to do so by a doctor as it may cause problems in the unborn child or complications during delivery.

Do not use

Do not use:

- If you have stomach problems (such as heartburn, upset stomach, or stomach pain) that persist or recur, or if you have ulcers or bleeding problems, unless directed by a doctor.
- If allergic to milk and/or egg white, or have ever had an allergic reaction to this product or any of its ingredients.

A persistent cough may be a sign of a serious condition. If cough persists for more than 1 week, tends to recur, or is accompanied by fever, rash, or persistent headache, consult your healthcare provider.

Keep out of the reach of children

Children Warning: Keep out of reach of children. In case of overdose, get medical help or contact a Poison Control Center right away.

Directions

- Dissolve 1 lozenge slowly in mouth.
- Repeat every 30 minutes as needed or as directed by health care provider.
- Children under 6 consult health care provider.

Other Information

- Store at room temperature.
- Check expiration date before using.
- Tamper Evident: Do not use if tamper seal is broken or missing.
- Do not give lozenges to children younger than age 4.
- Actual lozenge color may vary slightly due to the natural ingredients
