Nanofixit Defense Disinfectant Spray:

Disinfect surfaces inside your home and in public areas with scents derived from nature to deodorize the environment around you.

DIRECTIONS: Shake well. Hold can upright 6" to 8" from surface spray 2 to 3 seconds until covered with mist. To deodorize, spray on surface as needed. To sanitize, let stand for 30 seconds then allow to air dry.

Handling and Storage:

Do not store above the following temperature: 50 °C (122 °F)

Store in accordance with local regulations.

Use appropriate containment to avoid environmental contamination. Store away from direct sunlight in a dry, cool and well-ventilated area, away from food and drink. Eliminate all ignition sources.

FIRST AID:

EYE CONTACT: Immediately flush eyes with plenty of water, occasionally lifting the upper and lower eyelids. Check for and remove any contact lenses. Continue to rinse for at least 10 minutes. Get medical attention if irritation occurs.

INHALATION: Remove victim to fresh air and keep at rest in a position comfortable for breathing. If not breathing, if breathing is irregular or if respiratory arrest occurs, provide artificial respiration or oxygen by trained personnel. It may be dangerous to the person providing aid to give mouth-to-mouth resuscitation. Get medical attention if adverse health effects persist or are severe.

SKIN CONTACT: Flush contaminated skin with plenty of water. Remove contaminated clothing and shoes. Get medical attention if symptoms occur. Wash clothing before reuse. Clean shoes thoroughly before reuse.

INGESTION: Wash out mouth with water. Remove dentures if any. Remove victim to fresh air and keep at rest in a position comfortable for breathing. If material has been swallowed and the exposed person is conscious, give small quantities of water to drink. Stop if the exposed person feels sick as vomiting may be dangerous. Do not induce vomiting unless directed to do so by medical personnel. If vomiting occurs, the head should be kept low so that vomit does not enter the lungs. Get medical attention if adverse health effects persist or are severe. Never give anything by mouth to an unconscious person.
